Liberal arts students: Major ≠ Career

Did you know that 50–75% of all undergraduate degree requirements are the same, regardless of major? The last 25% (about 30 credits) is what determines the name of your major, but most of your academic classes are very similar to other college graduates. As for your major, liberal arts degrees are broad by design. This makes you a versatile graduate with lots of transferable skills to offer employers. Your degree doesn’t automatically predefine what you can do—you can do just about anything you want with the right combination of skills and experience!

Okay, not having a major that equates to a specific career might make figuring out what you want to do a little more challenging. But it also gives you many directions in which to turn initially and provides versatility over the life of your career. Liberal arts grads can be found everywhere: government, nonprofits, corporations and banks, education, and much more. As a liberal arts grad, you’ve got a lot to offer an employer. For many students, one of the best things to do is to focus less on your major and more on your interests.

Like other majors, employers will expect that you have experience when you graduate. This could include volunteer activities, student organization involvement, studies abroad, undergraduate research, part time jobs, and most importantly, internships. These activities allow you to explore what you might be interested in doing and build important skills valuable to employers before you graduate. Use your experiences intentionally to explore your interests, prepare for life after MSU, and connect with potential employers of interest.

Keep reading through the “Explore Your Future” section (pages 18-29), in addition to the section “Prepare to Make Your Move” (pages 50-61). And if you need help, don’t forget that your Career Consultant or Career Advisor can help you develop a custom plan through a career advising appointment (pages 12-13).
