Career Outcomes Rate - 92%

Of the 45 students who identified the type of employment chosen, 45 (100%) indicated their position was either a) career-related (32 = 71%), b) a stepping stone toward their ultimate career goal (12 = 27%), or c) work that allows them to explore career options (1 = 2%). A list of organizations that hired graduates in 2017 can be found in the appendix.

Salary Information

Fifty (50) of the graduates that indicated full-time employment also reported salary information. Of these, fifteen (15) graduates reported receiving a signing bonus.

Co-Curricular Activities

The survey also includes questions about co-curricular activities in which students may have participated during their college career. All students were asked to indicate their involvement in a list of career related activities while at MSU (or a previous institution in the case of transfer students) regardless of their destination outcome.

Sixty-six (66) students responded to this section. Table 5 shows the percentage of students that indicated each activity.

Table 6 aggregates the types of experiences from Table 5 into five categories of activities. Superscript letters indicate the activities in Table 5 that are incorporated into each category. Students are only counted once for each category even if they participated in more than one indicated activity.

The School of Hospitality Business - Table 5		
Co-Curricular Activity Participation by 2017 Graduates		
Activity	#	%
Co-op/Intern – for credit ^{a,b}	44	68%
Co-op/intern – non-credit ^{a,b}	24	37%

Superscript letters link co-curricular activities to supplemental experience programs in Table 6. Graduates could select more than one option.

Table 6 - Superscript letters link supplemental experience programs to co-curricular activities in Table 5 and graduates can select more than one type of experience. For instance, a student that did both an MSU and a non-MSU study abroad program (indicated with^d) in Table 5 would only be counted once towards study abroad in Table 6.
