Career Outcomes Rate - 98%

Of the 317 students who identified the type of employment chosen, 306 (97%) indicated their position was either a) career-related (281 = 89%) or b) a stepping stone toward their ultimate career goal (25 = 8%). A list of organizations that hired graduates in 2015 can be found in the appendix.

Salary Information

One hundred seventy-two (172) of the graduates that indicated employment also reported salary information. Of these, two (2) graduates reported receiving a signing bonus.

Continuing Education

Of the sixty-one (61) students that reported continuing their education as their main pursuit immediately after graduation, sixty-one (61) reported the specific degree pursued. Graduates who indicated employment as well as continuing education were excluded from this table. This information is self reported and may lead to slight inaccuracies when it comes to certification. *See appendix for a listing of universities attended for continuing education.*

Co-Curricular Activities

The survey also includes questions about co-curricular activities in which students may have participated during their college career. All students were asked to indicate their involvement in a list of career related activities while at MSU (or a previous institution in the case of transfer students) regardless of their destination outcome.

Three hundred eighty-nine (389) students responded to this section. Table 6 shows the percentage of students that indicated each activity.
