

Graduate & Professional School Fair

Tuesday, October 13, 2009

4:00-7:00 pm

MSU Union, 2nd Floor

On-line Booklet

Access Group

Room: Hallway, Table: 140

Website: <http://AccessGroup.Org>

Area(s) of Study: Other Nonprofit Graduate Loan Specialist

Access Group, a nonprofit organization, has specialized in providing student loans for graduate and professional education for more than 25 years. We offer federal student loans, borrower education materials, and a full range of online services for students and schools. Learn more at AccessGroup.Org

Access MD, LLC- Trinity School of Medicine

Room: Ballroom, Table: 20

Website: <http://www.trinityschoolofmedicine.org>

Area(s) of Study: Medicine/General Health Studies, Science (Physical/Biological)

Trinity School of Medicine offers the Doctor of Medicine or MD degree. Trinity School of Medicine promises to challenge, inspire and empower its students to achieve their full professional and personal potential as physicians. In accordance with this philosophy, the School was established to address the continuing demand for well-trained physicians to serve the health care needs of North America and the Caribbean.

Adler School of Professional Psychology

Room: Gold Room, Table: 109

Website: <http://www.adler.edu>

Area(s) of Study: Social Science

Founded in 1952, Adler School of Professional Psychology is the oldest independent school of Psychology in the North America. The School is named after Alfred Adler (1870-1937), the first community psychologist, whose theories and teachings of psychology emphasize the uniqueness of every individual's relationship and connection with society. Adler School is committed to continuing the work of Alfred Adler by producing socially responsible graduates, by providing holistic services to individuals and communities, and by promoting social justice.

Adler School of Professional Psychology's innovative program curricula, which include a doctoral program in clinical psychology and eight Master of Arts programs, prepare socially responsible practitioners by promoting social justice through education and training.

Degrees Offered:

Chicago Campus

Doctor of Psychology in Clinical Psychology (Psy.D.)

M.A. Counseling Psychology

M.A. Marriage & Family Counseling

M.A. Counseling: Art Therapy

M.A. Counseling & Organizational Psychology

M.A. in Gerontology

M.A. in Rehabilitation Counseling

M.A. in School Counseling

M.A. Police Psychology

American University-College of Arts and Sciences

Room: Gold Room, Table: 110

Website: <http://www.american.edu/cas>

Area(s) of Study: Humanities/Arts, Science (Physical/Biological), Social Science

The College of Arts and Sciences at American University provides students with a challenging education in the arts, humanities, sciences, and social sciences within a diverse community of scholars, staff, and students from all 50 states and more than 150 countries. Our faculty includes nationally and internationally known artists, scholars, and teachers, all committed to innovative approaches to instruction and excellence in research and creative endeavors.

Every year, world leaders, distinguished scholars from other institutions, and leading practitioners in various fields come to campus to speak about and encourage debate on current issues and expose students to cutting-edge ideas and trends.

Degrees Offered:

Doctoral Degree Programs

Anthropology (PhD)

Economics (PhD)

History (PhD)

Psychology: Clinical (PhD)

Psychology: Behavior, Cognition, and Neuroscience (PhD)

Master

American University-School of International Service

Room: Gold Room, Table: 111

Website: <http://www.american.edu/sis/grad>

Area(s) of Study: International Studies/Affairs

The School of International Service (SIS) is a community comprised of scholars, practitioners, and students from around the world. Providing a unique environment for learning and professional development, SIS faculty focus on interactive learning and involve students in ongoing research projects. From coffee houses to workshops, proseminars to skills modules, SIS students have the unique opportunity to individually tailor their program of study to meet career goals. SIS also offers opportunities to publish work, give professional presentations, or just share ideas and interests with other members of the school.

Located in Washington, D.C., students at SIS have the opportunity to take advantage of the wealth of professional, intellectual, and cultural resources in the Nation's capital.

Argosy University, Chicago

Room: Gold Room, Table: 113

Website: www.argosy.edu

Area(s) of Study: Business, Social Science, Other Clinical Psychology, Education, Counseling

Argosy University is a leading institution of higher learning founded upon the principle that relationship building is at the heart of both educational and professional success. Our academic programs focus on the interpersonal skills vital to professional achievement, while our faculty and staff nurture students' confidence — as well as competence — to thrive in their chosen fields. All of the degree programs available through our College of Psychology and Behavioral Sciences, College of Business, College of Education, and College of Health Sciences are designed to instill the knowledge, ethical values, and interpersonal skills of professional practice and to foster values of social responsibility in a supportive, learner-centered environment of mutual respect and academic excellence.

Ball State University

Room: Gold Room, Table: 114

Website: <http://www.bsu.edu/gradschool>

Area(s) of Study: Business, Communication/Journalism, Engineering/Computer Science, Government/Public Policy, Humanities/Arts, Nursing, Science (Physical/Biological), Social Science, Other Our master's programs in entrepreneurship and secondary education as well as our school psychology doctoral program all rank among the country's best. Current students are conducting a variety of exciting studies such as examining conflict in Hindu-Mu

More than 3,000 graduate students choose Ball State for our depth and quality of our programs and the forward thinking research they conduct with our stellar faculty. Most of the more than 100 graduate programs, many of which are nationally recognized, provide the option for either full- or part-time study. Many students are also working professionals and find our online courses to be easy and convenient for their busy lifestyles. In fact nearly 68 percent are employed while pursuing a degree. However, the majority of our students take classes on our beautiful 1,035-acre campus.

Bastyr University

Room: Gold Room, Table: 129

Website: <http://www.bastyr.edu>

Area(s) of Study: Medicine/General Health Studies, Naturopathic Medicine, Other

Bastyr University is one of the world's leading institutions for advancing knowledge in the NATURAL HEALTH SCIENCES. A pioneer in natural healing for decades, Bastyr offers ACCREDITED degree programs in:

- Naturopathic medicine
- Acupuncture and Oriental medicine
- Exercise science and wellness
- Herbal sciences
- Nutrition
- Health psychology

More about Bastyr:

- A 51-acre wooded campus adjacent to Lake Washington makes a perfect setting for the study and celebration of nature and healing practices.
- The campus library has the most extensive collection of books and journals on the natural health sciences in the Pacific Northwest.
- OUR medicinal herb garden is a unique tool for educating students about natural therapies, Chinese herbs and organic foods.
- Bastyr University Research Center is dedicated to evaluating natural medicine practices, exploring new treatments for chronic diseases, enhancing faculty research skills and educating students about latest research methods.
- Bastyr Center for Natural Health, THE UNIVERSITY'S TEACHING CLINIC located in Seattle, is staffed by health care teams that include advanced students under the supervision of Bastyr's clinical faculty. It is the largest natural health clinic in the Northwest.

Boston University School of Medicine-Mental Health Counseling and Behavioral Medicine Program

Room: Gold Room, Table: 115

Website: <http://www.bumc.bu.edu/mhbm>

Area(s) of Study: Social Work Psychology, public health, Mental Health

The Master of Arts (M.A.) in Mental Health Counseling and Behavioral Medicine (MHCBM) is an intensive 60-credit degree program designed to meet the requirements for an independent mental health-care license in Massachusetts and other states. The primary objective is to prepare individuals in mental health counseling interventions with a complementary background in behavioral medicine and neuroscience. Graduates of the (MHCBM) program provide a range of assessment, diagnostic, and treatment-focused counseling services to clients in mental health, medical research and independent practice settings. The program can be completed in two years of full-time study or in three years on a part-time-basis. Our curriculum consists of a combination of academic course work and substantial clinical experiences in a diverse medical school/hospital environment. The M.A. program in (MHCBM) is the first of its kind in the United States, making Boston University a leader in preparing master's-level mental health clinicians.

Boston University-School of Social Work

Room: Gold Room, Table: 116

Website: <http://www.bu.edu/ssw>

Area(s) of Study: Religious/Theological Studies, Social Science, Social Work

Boston University School of Social Work is committed to education which furthers social and economic justice in the urban environment and strives to incorporate this commitment into its programs and activities. The School is especially concerned with empowerment of all oppressed groups. BUSSW recognizes the ever changing demands on the profession and strives to meet them through the highest quality of teaching, scholarship, research, practice, and political action. BUSSW's aim is to educate professional social workers who will become leaders in a complex, diverse, and multicultural society. They will possess the knowledge and skills to address the needs and potentials of individuals, families, groups, organizations, and communities. The School offers an integrated program of study, including clinical and macro social work methods. It emphasizes the engagement of personal and community including clinical and macro social work methods. It emphasizes the engagement of personal and community strengths as fundamental to the understanding, treatment, and prevention of individual and social problems.

Bowling Green State University

Room: Gold Room, Table: 117

Website: <http://www.bgsu.edu/colleges/gradcol/index.html>

Area(s) of Study: Business, Communication/Journalism, Government/Public Policy, Humanities/Arts, International Studies/Affairs, Science (Physical/Biological), Social Science, Social Work, Other

Dear Present and Prospective Graduate Students,

Your decision (if you choose) to pursue graduate studies (at Bowling Green State University) will make you a member of a community of scholars who work and learn together in preparation for the challenges of tomorrow. The Graduate College staff and I look forward to assisting you as you progress toward achieving your educational and career goals.

In a premier learning community, the combined effort of the faculty, staff, and fellow graduate students creates the intellectual stimulus and significant research opportunities to provide you with the highest quality educational experience. Bowling Green State University prides itself in being such a community, where your talents, skills and intellectual passion will be allowed to grow and blossom. Global interdependence, the knowledge-based economy, and the rapid changes in science and technology, demand a higher and more sophisticated level of education.

I believe Bowling Green State University provides the intellectual environment where you can achieve your goals so that you can make a difference.

Dr. Deanne Snavelly

Interim Vice Provost for Research
and Dean of the Graduate College

Carnegie Mellon University-H. John Heinz III College

Room: Gold Room, Table: 121

Website: <http://www.heinz.cmu.edu/index.aspx>

Area(s) of Study: Government/Public Policy, Humanities/Arts

No other academic institution has a greater global presence in the fields of information systems and public policy management than H. John Heinz III College at Carnegie Mellon. Featuring a forward-thinking faculty, a comprehensive and innovative curriculum, cutting-edge research, excellent placement rates, and an outstanding roster of students, staff and alumni, Heinz College sets the standard for educating the next generation of global leaders.

Case Western Reserve University School of Dental Medicine

Room: Gold Room, Table: 118

Website: <http://dental.case.edu>

Area(s) of Study: Dentistry

The School of Dental Medicine was organized in 1892 as the Dental Department of Western Reserve University. Since 1969 the facilities of the School of Dental Medicine have been located in the Health Science Center of Case Western Reserve University adjacent to the Schools of Medicine and Nursing and University Hospitals of Cleveland, Ohio. The 50,000 square foot dental clinic floor consists of two major clinics and five specialty clinics. Drawing from a population of more than 500,000 people, the clinics provide a broad spectrum of care to the population, affording the student substantial clinic experience.

Case Western Reserve University School of Medicine

Room: Gold Room, Table: 119

Website: <http://casemed.case.edu/gradprog/>

Area(s) of Study: Other Biochemistry, Biomedical Engineering, Cell Biology, Epidemiology/Biostatistics, Genetics, Molecular Biology/Microbiology, Molecular Virology, Molecular Medicine, Neurosciences, Nutrition, Pathology, Pharmacology, Physiology/Biophysics

Case Western Reserve University - School of Medicine Graduate Education

Graduate programs in Biomedical Sciences

Case's School of Medicine doctoral programs offer a breadth of interdisciplinary training by faculty in a wide range of disciplines and departments, including outstanding graduate programs in genomics, cancer biology, the study of the brain and the biology of infections, as well as emerging programs in imaging research and nanotechnology, among others. We are top-ranked in NIH funding, and engage hundreds of faculty, students and postdoctoral researchers in our research programs. Our PhD graduates progress to postdoctoral positions at top-25 research institutions across the nation.

Central Michigan University-College of Health Professions

Room: Gold Room, Table: 122

Website: <http://www.chp.cmich.edu>

Area(s) of Study: Physical Therapy, Other Physician Assistant, Audiology, Speech-Language Pathology

The Herbert H. and Grace A. Dow College of Health Professions (CHP) is one of six academic colleges at Central Michigan University, a mid-sized, Midwestern university with an on-campus enrollment of +19,000 students, located in Mount Pleasant, Michigan. CHP provides learning opportunities to students aspiring to careers in professions that serve the contemporary health care needs of society. Master

Chapman University School of Law

Room: Gold Room, Table: 120

Website: <http://www.chapman.edu/law>

Area(s) of Study: Law

The Chapman University School of Law offers a full-time program leading to the Juris Doctor degree. In addition, the School of Law offers a joint JD/MBA degree with Chapman's AACSB-accredited Argyros School of Business and Economics. The required curriculum offers a core foundation in legal studies and covers foundational topics such as torts, contracts, criminal law, real property, civil procedure, legal research and writing. The required curriculum also grounds students in corporations and federal income taxation, constitutional law, evidence and professional responsibility.

Cleveland Chiropractic College

Room: Gold Room, Table: 137

Website: <http://www.Cleveland.edu>

Area(s) of Study: Chiropractic Medicine, Medicine/General Health Studies, Other Health Promotion

Master of Science in Health Promotion

Doctor of Chiropractic

Concurrent Degree Options

Located just outside of Kansas City, Cleveland Chiropractic College boasts a new campus with state-of-the-art facilities. Our DC program is the place to learn the science, philosophy and art of chiropractic. We offer a balanced curriculum (including rehabilitation, physiotherapy and nutrition), 14 adjusting technique courses, small student-to-faculty ratio and hands-on experience in your first trimester. Beginning in 2010 students will also have the option to earn a Master of Science in Health Promotion. Area's of focus include: sports health, health research, nutrition and diet, health policy. This degree allows you to sit for the Certified Health Education Specialist exam (CHES).

College for Creative Studies-Design/Transportation Design

Room: Gold Room, Table: 127

Website: <http://www.collegeforcreativestudies.edu/mfa>

Area(s) of Study: Other Design and Transportation Design

The College for Creative Studies, in collaboration with the University of Michigan's Ross School of Business, is proud to introduce the Master of Fine Art Graduate Program. By integrating curriculum from Ross School of Business, this unique hybrid program gives graduate students real-world experience at the intersection of design and industry. The CCS MFA Program consists of two departments: Design and Transportation Design. Though largely distinct, these two disciplines do overlap and share some common curricula. But within each program, industry experts, thought leaders and renowned designers drill down and develop a keen focus. Beyond the classroom walls, the program demands collaborative problem solving and hands-on community projects. Those who emerge from the program will have an exceptional understanding of conceptualization, direction, and application of design in a spectrum of industries, as well as a fluent ability to express those ideas as business leaders. MFA Design graduate's vision is not simply to design how things are made, but to shape what the task will be. They will create new expectations and design experiences as shapers of the world, rather than mere stylists of technological artifacts. They will carry a deepened contextual understanding of the human environment, and offer unique perspectives to critical contemporary challenges. But such sweeping claims will be grounded in the concrete. With our institutional commitment to the designer as maker and doer, the studio format is at the heart of the graduate program's curriculum. Each student will complete at least two team-based studio projects in their program. Following a design development path that begins with extensive and rigorous research, they will take design problems through multiple project phases to completion. Those final high-quality studio models are also shaped and informed by lecture courses in history, business practices and the social sciences. Interdisciplinary Graduate Seminars are structured to bring together students, academic and industry leaders from related fields, in a platform that will stretch and challenge students at their best. The Graduate Program in Transportation Design aspires to create those visionaries who will reshape the very notion of what Transportation can be. How will our graduates tackle epochal questions of social change and global environmental issues? By doing. With our institutional commitment to the designer as maker and doer, the studio format is at the heart of the graduate program's curriculum. Each student will complete at least two team-based studio projects in their program. Following a design development path that begins with extensive and rigorous research, they will take design problems through multiple project phases to completion. Those final high-quality studio models are also shaped and informed by lecture courses in history, business practices and the social sciences. Interdisciplinary Graduate Seminars are structured to bring together students, academic and industry leaders from related fields, in a platform that will stretch and challenge students at their best.

Columbia University, Teachers College

Room: Gold Room, Table: 131

Website: <http://tc.columbia.edu/admissions>

Area(s) of Study: All Graduate Programs Education

Teachers College, Columbia University is more than its name implies-it is an urban, independent, thoroughly diverse and multicultural, comprehensive graduate and professional school of education. Since its inception in 1887, Teachers College has also been a leading institution concerned with extending educational opportunity and improving the quality of education in and out of the classroom and across the lifespan. With more than 120 top-ranked graduate degree programs from which to choose, Teachers College offers students an unmatched array of areas of study. Students can concentrate in areas including education and educational leadership, clinical and counseling psychology, social and behavioral sciences, the arts and humanities, health and health promotion, international and comparative education, policy, and technology.

Columbia University-Graduate School of Journalism

Room: Gold Room, Table: 132

Website: <http://www.journalism.columbia.edu>

Area(s) of Study: Other Journalism

Columbia's master's programs provide journalists with a unique opportunity to hone and deepen their journalistic abilities at any point in their careers. Our mission is to give students the tools that will help them over the long term as journalists. These include intensive individual coaching in writing and reporting provided by the nationally renowned journalists on our faculty. They train students in journalistic techniques; familiarize them with all forms of journalistic media; teach them the history of our profession; and introduce them to the substance of complicated subjects that can't be understood through simple intuition. For more information about our programs and scholarship opportunities, visit our website at www.journalism.columbia.edu.

Columbia University-School of Engineering and Applied Science

Room: Gold Room, Table: 133

Website: <http://www.engineering.columbia.edu>

Area(s) of Study: Engineering/Computer Science

Columbia University School of Engineering and Applied Science offers graduate degrees in applied physics, applied mathematics, biomedical engineering, chemical engineering, civil engineering, construction engineering management, engineering management systems, engineering mechanics, computer engineering, computer science, earth and environmental engineering, electrical engineering, financial engineering, industrial engineering, operations research, materials science engineering, medical physics, mechanical engineering, metallurgical engineering, mining engineering, and solid-state science engineering. Our academic programs allow students to advance knowledge in classical engineering or applied science disciplines or delve into new, exciting interdisciplinary fields. Degrees can be pursued on a full-or part-time basis. Distance education and MS/MBA programs are also available.

Columbia University-School of Social Work

Room: Gold Room, Table: 134

Website: <http://socialwork.columbia.edu>

Area(s) of Study: Social Work

Columbia University School of Social Work derives its mission from the University's goal to advance knowledge and learning at the highest level and to use that knowledge for human betterment and societal advancement. The School aims to prepare graduate students for advanced social work practice and professional leadership within a diverse learning environment, to advance knowledge for effective social work practice and education, to enhance the welfare of the citizens and communities of New York City, the nation, and around the world, and to further the goals of the university and the social work profession. Our educational and research programs draw on the profession's body of knowledge, values and skills in seeking to: strengthen practices, programs, and policies that support and enhance the opportunities, resources, and capacities of people to achieve their full potential; prevent and alleviate personal, interpersonal and societal problems; redress conditions that limit human development and quality of life; and, promote human rights, social justice and respect for human diversity. Columbia's faculty, students and graduates seek to enhance the well-being of local, national and international communities and to advance the University and the profession through collaboration, consultation, and public service.

DePaul University

Room: Gold Room, Table: 130

Website: <http://depaul.edu/academics/graduate/programs/index.asp>

Area(s) of Study: Business,Communication/Journalism,Engineering/Computer Science,Government/Public Policy,Humanities/Arts,International Studies/Affairs,Law,Nursing,Religious/Theological Studies,Science (Physical/Biological),Social Science,Social Work

Within our nine graduate college and schools, we offer more than 100 graduate and doctoral degrees. While the scope and content of many programs are guided by professional requirements, many more off a range of personal choice and creativity in shaping a graduate education that's purposeful, practical and personal.

Dominican University-Graduate School of Social Work

Room: Gold Room, Table: 128

Website: <http://www.socialwork.dom.edu>

Area(s) of Study: Social Work

Dominican University's Graduate School of Social Work MSW program located in River Forest, Illinois is accredited by the Council on Social Work Education and is one of the first graduate schools in the nation to offer a globally focused, family centered concentration.

Globally Focused

Our MSW students have the option to participate in domestic and international field placements. Some of our students have experienced international field placements in South Africa, Ecuador, India, Latvia, Mexico, and the Philippines and we are now developing relationships with other international sites.

Family Centered

The family centered component of our program focuses on the nature of families in terms of culture, community, the life cycle and the components and dynamics of family systems.

Gerontology (Older Adult)

Dominican's MSW program is further enriched with gerontological competencies embedded into the foundation curriculum and structure of the program.

Type 73 School Social Work Certification

The Type 73 School Social Work Certification prepares students to become professional school social workers in the K-12 education setting.

Plans of Study

In order to meet the diverse needs of our student body we offer several plans of study. Students with an earned bachelor's in social work (BSW) from an accredited CSWE program may be eligible to complete the 30 credit hour advanced standing program in 9 months as a full-time student or over 2 years as a part-time student. Students who do not have a BSW can complete the entire 60 credit hour MSW program as a full-time or part-time student.

For more information go to www.socialwork.dom.edu.

Drexel University College of Medicine-Office of Professional Studies in the Health Sciences

Room: Hallway, Table: 144

Website: <http://www.drexelmed.edu/IMS>

Area(s) of Study: Dentistry, Medicine/General Health Studies, Science (Physical/Biological), Veterinary Medicine

The Office of Professional Studies in the Health Sciences, formerly known as the Post Baccalaureate Pre-Professional Programs, at Drexel University College of Medicine have been helping students gain entry into medical schools since 1981. We are now offering several one-year certificate graduate level post baccalaureate pre-medical programs. Each targeted to strengthen a select set of academic tasks that are required for admission into medical and veterinary school.

Emerson College

Room: Hallway, Table: 138

Website: <http://www.emerson.edu/admission>

Area(s) of Study: Business, Communication/Journalism, Humanities/Arts, Other Communication Disorders, Publishing and Writing

Emerson College in Boston, MA is the only comprehensive college or university in America dedicated exclusively to communication and the arts in a liberal arts context. Since its founding in 1880 as a small school of oratory, Emerson College has evolved into a multi-faceted college that is internationally recognized for excellence in its fields of specialization, which are communication, marketing, communication sciences and disorders, journalism, the performing arts, the visual and media arts, and writing, literature, and publishing.

Emory University-The Laney Graduate School

Room: Hallway, Table: 139

Website: <http://www.graduateschool.emory.edu>

Area(s) of Study: Humanities/Arts, Science (Physical/Biological), Social Science

The Laney Graduate School now offers degrees in 41 programs across the humanities, the social sciences, biomedical and natural science, public health, nursing and business. We offer the PhD as the terminal degree in 33 of these programs, and the masters as the terminal degree in eight. Our proximity to Atlanta allows for collaborative partnerships with many local institutions, including the Carter Center, Yerkes National Primate Research Center, the U.S. Centers for Disease Control and Prevention, CARE, the American Cancer Society, and Georgia Institute of Technology.

Erikson Institute

Room: Hallway, Table: 142

Website: <http://www.erikson.edu/>

Area(s) of Study: Other Early Childhood Development

Erikson Institute is the nation's premier graduate school in child development. Since 1966, we've prepared professionals to understand and meet the changing needs of young children and their families. We focus exclusively on children from birth to age eight—the most important formative years. Our vision is that every adult who works with young children or on their behalf will be knowledgeable, aware, skilled, and alive to the possibilities of each child's life. We offer master's degrees, a doctoral program, graduate certificate programs, and a wide array of professional development opportunities for those seeking to improve their practice and sharpen their skills. Teaching adults is one way Erikson achieves its mission of improving children's lives. Applied research, knowledge generated by the Herr Research Center for Children and Social Policy, direct clinical services to families, and a wide range of community engagement initiatives are others. We collaborate to improve and expand services in school districts, social service agencies, the child welfare system, courts, and health services. Each year, the work of our faculty, researchers, alumni, and students touches the lives of more than a quarter million young children. Located in downtown Chicago, Erikson is recognized as a hub of complex, creative thinking and expertise that influences policy. Our reach and influence extends far beyond Chicago; we are at the forefront of local, state, and national discussions about how best to educate and support young children and their families. We are expanding our online education options to reach students—and the children they serve—farther afield. Our teacher certification program at the College of DuPage improves the quality of early education in underserved communities in the Western suburbs.

Ferris State University-College of Pharmacy

Room: Parlors, Table: 72

Website: <http://www.ferris.edu/htmls/colleges/pharmacy/index.cfm>

Area(s) of Study: Other Pharmacy

As a result of contraction in the manufacturing sector in the State of Michigan, health care has emerged as the state's largest private-sector employer (Detroit News 7/28/09), making pharmacy a great opportunity. Pre-pharmacy coursework in chemistry, biology and mathematics can be completed in as few as 2-years, allowing application to the 4-year program at Ferris State University. The College of Pharmacy has developed transfer guides for many of the 2 and 4-year institutions around the state (including MSU). Placement rates from pharmacy programs are virtually 100% following successful completion of the national board exam, with Ferris graduates enjoying above average pass rates as compared to the state and national averages in 2008. Opportunities for pharmacists continue to be strong throughout the United States with 47 of 50 states (including Michigan) showing demand equal to, or in excess of supply (www.pharmacymanpower.com June, 2009). The average pharmacist hourly rate is approximately \$54/hour allowing them to earn a competitive annual salary of approximately \$100,000/year (Drug Topics, March 1, 2009).

Georgetown University Medical Center-Biomedical Graduate Education

Room: Parlors, Table: 70

Website: <http://biomedgrad.georgetown.edu>

Area(s) of Study: Science (Physical/Biological)

Georgetown's biomedical degree programs offer a variety of outstanding training environments responsive to the needs and interests of a diverse population of students. As a focus for educational training in the biomedical sciences, Georgetown's Medical Center offers students not only a tradition of excellence in education, research and institution in ferment, aware of its growing stature in national and international distinction in academic medicine. During the past several years, the Medical Center has achieved unprecedented growth in its programs for basic and clinical research, presenting the next generation of Georgetown investigators with a dynamic environment for inquiry and discovery in the sciences of human health and disease. In addition to doctoral research training programs, Georgetown offers a wide variety of master's programs in the biomedical sciences, a number of which are the first of their kind, and place Georgetown at the forefront of graduate education in their respective fields. All of Georgetown's degree programs in the biomedical sciences offer access to resources unique to the university's Washington, DC location, through collaborative studies with organizations such as the Homeland Security Institute, the adjacent National Institutes of Health, the US Department of Defense, and other well-known government research institutions and the private sector, which allow access to an extremely wide spectrum of expertise and state-of-the-art technologies.

Georgetown University-Graduate School of Arts and Sciences

Room: Parlors, Table: 71

Website: <http://grad.georgetown.edu>

Area(s) of Study: Other Arts and Sciences

The Admissions Office for the Graduate School of Arts and Sciences at Georgetown University oversees and manages the procedures and applications of over 50 programs ranging from Biomedical Science programs to Government programs to Foreign Service programs to language and culture programs. For a complete list of programs, please visit our website at grad.georgetown.edu. Please email any questions you may have to gradmail@georgetown.edu.

Grand Valley State University

Room: Parlors, Table: 73

Website: <http://www.gvsu.edu>

Area(s) of Study: All Graduate Programs,Physical Therapy

Grand Valley State University offers 26 graduate programs and 80 areas of graduate study. We offer courses in Grand Rapids, Allendale, Holland, Muskegon, and Traverse City, Michigan.

Hawaii Pacific University-Center for Graduate and Adult Services

Room: Parlors, Table: 74

Website: <http://www.hpu.edu/grad>

Area(s) of Study: All Graduate Programs,Other

The graduate experience at Hawaii Pacific University is a unique combination of integrated learning, small class sizes, practical orientation, excellent networking opportunities, and a focus on teaching--all in an incredibly diverse community located in the heart of the Pacific. HPU prepares students to meet the challenges of a constantly changing environment.

MBA,

Indiana University - Indianapolis-School of Law

Room: Parlors, Table: 101

Website: <http://indylaw.indiana.edu>

Area(s) of Study: Law

Indiana University School of Law - Indianapolis is the only law school in Indianapolis. Our JD program is offered as a full time program as well as a part time (evening) program. Located in downtown Indianapolis, we are steps away from law firms, businesses, and local, state and federal government offices. Opportunities for experiential learning, study abroad and joint degrees are available.

Indiana University Bloomington-School of Public and Environmental Affairs

Room: Parlors, Table: 100

Website: <http://www.spea.indiana.edu>

Area(s) of Study: Government/Public Policy,Humanities/Arts,International Studies/Affairs,Science (Physical/Biological),Social Science,Social Work Environmental Science

Indiana University's School of Public & Environmental Affairs is the country's largest school of public affairs and environmental science and is currently ranked second in the country by U.S. News and World Report. The school's offerings include two master's degrees (a Master of Public Affairs and Master of Science in Environmental Science) with multiple concentration offerings, three doctoral degrees, a joint master's degree (MPA/MSES) within the school, and 13 joint degrees with other Indiana University professional schools and academic centers. Whatever your course of study, you'll find hands-on experiences to hone your skills and focus your interests, internationally regarded faculty members who will inspire and guide you as you learn, a community of engaged fellow students, and a career services staff and network of alumni who will connect you to top-level internships and jobs.

Indiana University School of Medicine Graduate Division-IBMG Program for Ph.D. Study

Room: Parlors, Table: 99

Website: <http://grad.medicine.iu.edu>

Area(s) of Study: Medicine/General Health Studies, Science (Physical/Biological) Biomedical Research

Offering programs in the Life Sciences, and Biomedical Sciences.

The Indiana University School of Medicine (IUSM) offers graduate degrees in 10 basic medical science disciplines. Ph.D. students enter through an Open Admission program (IBMG Program) where they have up to one year to select a research laboratory and degree program [students participate in three lab rotations to facilitate their decision]. Research-based M.S. degrees are offered in each of the 10 disciplines and 3 specialty degrees are also offered: Biotechnology; Genetic Counseling; and Pathologists' Assistant. M.S. students enter directly into the program they apply to. In addition to the Ph.D. and M.S. programs the IUSM offers a special Indiana Medical Scientist Training (MSTP) program leading to the combined M.D./Ph.D.

biomed@iupui.edu

Johns Hopkins University School of Nursing

Room: Parlors, Table: 77

Website: <http://www.son.jhmi.edu>

Area(s) of Study: All Graduate Programs

Johns Hopkins University School of Nursing offers academic preparation for the future leaders in the profession of nursing to practice in national and international settings. Degreed programs include Baccalaureate, Master's and Doctoral education. Areas of focus include, but are not limited to Forensic Nursing, Nurse Practitioner, MSN/MBA, MSN/MPH, DNP & PhD.

Kaplan University

Room: Parlors, Table: 102

Website: <http://portal.kaplanuniversity.edu>

Area(s) of Study: Business, Law, Medicine/General Health Studies, Nursing

Kaplan University offers online master's, bachelor's, associate's, and professional law degrees, as well as online certificate programs. Campus-based schools offer online and/or onsite bachelor's degrees, associate's degrees, diplomas, and certificates.

Keck Graduate Institute of Applied Life Sciences

Room: Parlors, Table: 103

Website: <http://www.kgi.edu>

Area(s) of Study: Dentistry, Engineering/Computer Science, Medicine/General Health Studies, Naturopathic Medicine, Osteopathic Medicine, Podiatric Medicine, Science (Physical/Biological) Engineering

Keck Graduate Institute (KGI) is a standalone graduate institution that combines applied life sciences, bioengineering, bioethics and business management. KGI offers degree/certificate programs in: Master of Bioscience (MBS), Postdoctoral Professional Masters (PPM), PhD in Applied Life Sciences or Computational Biology, Post-baccalaureate Premedical Certificate, etc. KGI is uniquely positioned to develop leaders who will meet the challenges and opportunities presented by this life sciences industry, by incorporating valuable business training that will prepare students to become successful in their field. KGI is a member of The Claremont Colleges, located in Claremont, California.

King Abdullah University of Science & Technology

Room: Parlors, Table: 104

Website: <http://www.kaust.edu.sa/>

Area(s) of Study: Engineering/Computer Science, Science (Physical/Biological)

King Abdullah University of Science and Technology (KAUST), Saudi Arabia is an international, graduate-level research university dedicated to inspiring a new age of scientific achievement in the Kingdom that will also benefit the region and the world. The core campus is located on more than 36 square kilometers along the Red Sea at Thuwal – about 80 kilometers north of Saudi Arabia's second largest city, Jeddah. The university opened in September 2009, with degrees in 11 fields of study. KAUST will pursue its research agenda through four strategic research thrusts that focus on areas of science and technology that are important to Saudi Arabia, the region, and the world: Resources, Energy and Environment; Biosciences and Bioengineering; Materials Science and Engineering; Applied Mathematics and Computational Science.

Lake Erie College of Osteopathic Medicine (LECOM)-College of Osteopathic Medicine / School of Pharmacy

Room: Parlors, Table: 105

Website: <http://WWW.LECOM.EDU>

Area(s) of Study: Osteopathic Medicine Pharmacy

LECOM is a private college with its main campus in Erie, Pennsylvania with an additional location, LECOM at Seton Hill, in Greensburg, Pennsylvania; and LECOM Bradenton, a branch campus in Bradenton, Florida. The nation has a growing demand for new doctors and pharmacists, and LECOM's mission is to prepare health care professionals trained in the osteopathic tradition of competent and compassionate, whole-person primary care. LECOM grants the Doctor of Osteopathic Medicine and the Doctor of Pharmacy degrees. The medical and pharmacy professions complement each other by coordinating and emphasizing competency and quality in health care. LECOM degree programs train a team of professionals who will become the patients' partners on the pathway to health and well being. LECOM seeks applicants who not only have shown success in their science courses, but also have proven themselves as well-rounded individuals who have done well overall in their academic careers.

Lawrence Technological University

Room: Parlors, Table: 106

Website: <http://www.ltu.edu>

Area(s) of Study: Business,Communication/Journalism,Engineering/Computer Science,Science (Physical/Biological)

Founded in 1932 on the site where Henry Ford perfected the moving assembly line, Lawrence Technological University pioneered the offering of evening programs for working adults. This innovation coupled with an education emphasizing both theory and practice and a responsiveness to the needs of industry, has given generations of engineers, architects, scientists and managers the preparation and motivation to become leaders in their fields. Lawrence Tech offers the following graduate programs: Architectural Management (online only), Architecture Post-Professional Degree, Architecture Professional Degree, Architecture 4+3 1/2 Program, Automotive Engineering, Business Administration, Business Administration/Global Leadership and Management Dual Degree, Business Administration International, Civil Engineering, Computer Science, Construction Engineering Management, Critical Studies in Architecture (certificate), Educational Technology, Electrical and Computer Engineering, Energy and Environmental Management (certificate), Engineering in Manufacturing Systems, Engineering Management, Global Leadership and Management, Information Systems, Instructional Technology (certificate), Interior Design, Interior Design 4+3, Manufacturing Systems (certificate), Mechanical Engineering, Mechatronic Systems Engineering, Nonprofit Management and Leadership (certificate), Project Management (certificate), Robotics (certificate), Science Education, Sustainable Architecture (certificate), Technical and Professional Communication, Transportation Design (certificate), Urban Design (certificate), and Workplace Technology.

LehighUniversity-College of Arts & Sciences

Room: Parlors, Table: 107

Website: <http://www.cas.l;ehigh.edu/grad>

Area(s) of Study: Business,Engineering/Computer Science,Government/Public Policy,Humanities/Arts,International Studies/Affairs,Science (Physical/Biological),Social Science

For nearly 150 years, Lehigh University has combined outstanding academic and learning opportunities with leadership in fostering innovative research. The institution is among the nation's most selective, highly ranked private research universities. Lehigh's four colleges:College of Arts and Sciences, College of Business and Economics, College of Education and the P.C. Rossin College of Engineering and Applied Science provide opportunities to 6,500 students to discover and grow in a learning community that promotes interdisciplinary programs with real-world experience. The College of Arts & Sciences offers graduate programs in American Studies, Biological Sciences, Chemistry, Earth & Environmental Science, Environmental Policy & Design, English, History, Mathematics, Physics, Psychology, Political Science and Sociology.

Life Chiropractic College West

Room: Parlors, Table: 68

Website: <http://www.lifewest.edu>

Area(s) of Study: All Graduate Programs,Other Kinesiology, Biology, Chemistry

Life Chiropractic College West, which offers a Doctor of Chiropractic degree, is located in the heart of the San Francisco Bay Area. The College provides solid academic and clinical experience, featuring an integrated emphasis on chiropractic philosophy and technique. Students may complete the program in as few as 12 quarters, with extended academic programs of up to 14 quarters available. Life West students are trained in over 12 different techniques through its core and elective programs. Equipped with a strong background in the sciences, a deep understanding of the chiropractic philosophy, and training in leading techniques, Life graduates become well-prepared for a career in chiropractic health care.

Life University

Room: Parlors, Table: 67

Website: <http://www.life.edu>

Area(s) of Study: Chiropractic Medicine

Life University was founded in 1974 and is located on a beautiful, wooded 90-acre campus in Marietta, Georgia, 15 miles northwest of Atlanta. Life University's 1500 students study degree programs at every level. True to our mission, our programs focus on health and human performance. Life offers a Masters of Science in Health Science and a Doctor of Chiropractic. Our Masters program offers areas of concentration in the professional fields of Exercise and Sport Science, Sport Injury Management, Sport Coaching, and Chiropractic Sport Science. Students are exposed to current science and issues in injury management. Life University's College of Chiropractic is the central jewel in the crown of Life University. Life emphasizes both the how and the why of chiropractic. With a tradition of excellence in teaching adjusting techniques (and a wide variety of them) and an early educational experience in the campus clinic, Life prepares you to join the profession's best in taking care of patients.

Logan College of Chiropractic | University Programs

Room: Parlors, Table: 108

Website: <http://www.logan.edu>

Area(s) of Study: Chiropractic Medicine, Other Sports Science & Rehabilitation

You've examined numerous educational options for your undergraduate career, now you're looking for the scholastic experience that will define your professional life. Logan provides you with the academic challenge and credentials that prepares you for an exciting future. Not only do we offer prominent faculty, modern facilities and hands-on experiences, we also partner with you to ensure you receive the one-on-one guidance necessary to achieve success. Our methods are proven we graduate 90 percent of our students who go on to enjoy fulfilling careers. Logan is expanding its leadership in integrative healthcare education by adding new degree offerings to its core doctor of chiropractic program. Logan's newest graduate program is the Master's degree in Sports Science and Rehabilitation. The program prepares graduates to manage sports injuries, athletic performance and conditioning through a wide array of academic and clinical experiences. The Doctor of Chiropractic program includes extensive study in Basic, Chiropractic and Clinical Sciences. The combination of classroom studies and hands-on experiences total nearly 5,000 hours spent preparing for a successful chiropractic practice. Logan has taken the lead in offering a graduate degree in Sports Science and Rehabilitation. This unique advanced degree option for sports injury management will provide the experience and training needed for success in the athletic arena.

Madonna University

Room: Parlors, Table: 89

Website: <http://www.madonna.edu>

Area(s) of Study: All Graduate Programs

Known for its rich academic tradition and located in Livonia, MI, the Graduate School at Madonna University provides a high-quality, practical education through small classes and personal attention at an affordable cost. We offer graduate degrees in Business, Liberal Studies, Clinical Psychology, Education, Health Services, History, Hospice and Palliative Studies, Nursing, Pastoral Ministry, Teaching English to Speakers of Other Languages, as well as many graduate certificates.

McGill University-Faculty of Engineering

Room: Parlors, Table: 88

Website: <http://www.mcgill.ca/engineering/>

Area(s) of Study: Engineering/Computer Science

Ranked 18th in the World's Best Colleges in Engineering and IT by U.S. News & World Report, the Faculty of Engineering at McGill University is on the cutting edge of research and innovation. Helping to maintain this standard of excellence, the Faculty offers graduate and undergraduate students the opportunity to work with world-calibre researchers and exceptionally-talented students in the Departments of Chemical Engineering, Civil Engineering and Applied Mechanics, Electrical and Computer Engineering, Mechanical Engineering, Mining and Materials Engineering, and the Schools of Architecture and Urban Planning. Students have access to advanced research facilities and the opportunity to be a part of innovative, interdisciplinary research teams in areas such as Aerospace Engineering, Bioengineering, Broadband Communications, Energy and Power Engineering, Environmental Engineering, Infrastructure Engineering, Nanotechnology and New Materials, and much more. Campus and Location. Founded in 1821, McGill is located in the heart of downtown Montreal, one of North America's most vibrant, cosmopolitan centres. The 33,000-member student body is the most internationally diverse of any university in Canada, comprised of people from 160 countries; many are bilingual or multilingual. Its location in this multicultural environment, at the crossroads of Europe and North America, makes McGill Engineering ideally suited to prepare graduates for work in the global economy. Because they are academically gifted and often highly-mobile, McGill graduates are much in demand by multinational corporations seeking to recruit the brightest and best job candidates.

Degrees Offered

DEPARTMENTS AND SCHOOLS

Chemical Engineering

Civil Engineering and Applied Mechanics

Electrical and Computer Engineering

Mechanical Engineering

Mining and Materials Engineering

School of Architecture

School of Urban Planning

DEGREE PROGRAMS

Doctor of Philosophy (Ph.D.)

Master of Engineering (M.Eng.)

Master of Urban Planning (M.U.P.)

PROFESSIONAL PROGRAMS

Master of Aerospace Engineering

Master of Architecture (professional and post-professional degrees)

Master of Manufacturing Management (M.M.M.)

Programs and Curriculum

McGill provides a comprehensive support system to help graduate students in their educational and personal pursuits. They can benefit from language training, obtain expert tutoring or access services to prepare them for exams, help proof-read their papers or enhance their oral presentation, instructing and writing skills. McGill also helps students find housing, both on and off-campus; obtain financial assistance or earn extra income through a work study program. McGill operates a legal information clinic and gives its students easy access to an ombudsperson and dispute resolution services. There is also a group that informs graduate students about their rights and responsibilities, supports them if violations occur and provides information about University rules, regulations, policies and procedures. McGill also provides guidance and counseling services; a multi-faith team of chaplains; a wide range of medical, mental health and dental services; health insurance for Canadian and international students; advice about issues involving sexuality and services for mature students, first nations students, students with disabilities and students with children who must combine parenting with their desire to earn a degree.

Facilities

McGill boasts an exceptional library system, excellent summer and winter varsity and intramural sports programs, top-notch athletic facilities, vibrant student activities of every description, a beautiful tree-lined campus and first-in-class Engineering Faculty teaching and research centres and laboratories, including the Brace Centre for Water Resources Management, the Centre for Advanced Systems & Technologies in Communications, the Centre for Intelligent Machines, the McGill Institute for Advanced Materials and the McGill Metals Processing Centre.

Financial Support

In 2008, 68% of the new PhD students received competitive three-year funding packages;

All international doctoral students registered full-time at McGill pay the same tuition as Québec doctoral students;

Prestigious named fellowships are offered to high-calibre applicants, and;

Top-up funding is available for NSERC and FQRNT award winners.

Admissions

All applications and admissions into graduate engineering programs are handled by the individual departments. Before you apply, you should contact the academic unit offering the program in order to establish a relationship. The Graduate Program Coordinator/Secretary will be your main contact person within the unit and will provide you with pertinent information. They can answer your questions about program requirements, the admissions process, supplemental materials, funding opportunities and potential supervisors. However, they will recommend that you consult the faculty profiles on their department website and consult with individual researchers for specific information about research projects and opportunities in your area.

Career Services and Placement

If you would like to tell us about your career services, please add it here

Graduate students have access to career planning and professional development resources at the Career and Placement Services (CAPS).

Medical College of Wisconsin-Graduate School of Biomedical Sciences

Room: Parlors, Table: 90

Website: <http://mcw.edu/gradschool>

Area(s) of Study: Science (Physical/Biological)

The Medical College of Wisconsin (MCW) offers collaborative, interdisciplinary, hands-on graduate training in the Biomedical Sciences. It has produced internationally-distinguished research scientists who have accomplished bench-to-bedside, life-changing medical breakthroughs. Our state-of-the-art facilities are equipped to make every day on campus an opportunity for discovery. The Medical College of Wisconsin is internationally known for its research programs. These programs offer opportunities to study at the cutting edge of biomedical research – including several interdisciplinary research opportunities available in areas such as cancer biology, proteomics research and developmental and cardiovascular physiology.

Michigan School of Professional Psychology-Clinical Psychology

Room: Parlors, Table: 87

Website: <http://www.mispp.edu>

Area(s) of Study: Social Science Clinical and Humanistic Psychology

The Michigan School of Professional Psychology offers opportunities for collaborative study in a unique environment grounded in humanistic principles. At MiSPP, we are dedicated to the development of the competencies necessary for provision of psychological services to diverse populations. Professional development and personal growth are emphasized in scholarly pursuits and clinical application. Psychology, education, philosophy and qualitative research are integrated in both the Masters and Doctoral Programs. MiSPP students are self-reflective, passionate about learning, and committed to make the most of their education through community action and social change. Our students follow a carefully designed curriculum and are self-directed in learning endeavors. Active engagement between students, faculty and staff is evidenced daily and profound lasting professional and personal relationships are formed. It is here that you will fully discover yourself and your potential, while establishing and polishing skills as a clinical psychologist. When MiSPP students graduate, they leave prepared to make a difference in the lives of those they encounter.

Michigan State University-Biomedical Laboratory Diagnostics Program

Room: Parlors, Table: 92

Website: <http://bld.msu.edu>

Area(s) of Study: Chiropractic Medicine, Dentistry, Medicine/General Health Studies, Nursing, Osteopathic Medicine, Podiatric Medicine, Veterinary Medicine Biomedical Laboratory Diagnostics Program

The graduate program in Clinical Laboratory Sciences leads to the Master of Science degree. The program emphasizes the multidisciplinary nature of the laboratory sciences, encourages research that crosses traditional laboratory disciplines and promotes innovative thinking. Hematology, immunohematology, molecular pathology, microbiology, clinical chemistry and hemostasis are areas of specific faculty expertise and are represented in the Master's degree program in Clinical Laboratory Science. Students may conduct both Plan A (thesis research) or Plan B (non-thesis research) with resident as well as selected adjunct faculty. Research facilities are located in newly renovated space on the third floor of North Kedzie Laboratory. Graduate students have access to a variety of modern equipment and technology in both these laboratories as well as in various research centers around campus. Michigan State University has been involved in Medical Technology education since 1926. Throughout the years the goal of this program has been that of a leader in the advancement of the clinical sciences through the dissemination and acquisition of knowledge pertinent to the field at both a graduate and undergraduate level. Consistent with the land grant philosophy and the mission of the College of Natural Science, the Biomedical Laboratory Diagnostics Program carries on this commitment through the promotion of our graduate program. This program addresses the needs of the practitioner in terms of understanding new emerging technologies and their application to the field of clinical laboratory science. A multiple disciplinary approach to the laboratory sciences is emphasized, which encourages innovative thinking that crosses traditional boundaries. The acquisition of a Masters Degree in Clinical Laboratory Science not only offers the opportunity to expand current knowledge but also personal credentials. The Master of Science Degree can be acquired by following one of two available tracks. Plan A emphasizes scientific research with a written thesis and defense. Plan B requires a project, usually involving the review of the literature, with a written summary and defense. Both require prescribed course work which consists of a core set of courses and additional courses which suit the intent of the individual. The Plan B Masters Degree is usually considered terminal. Plan B is available on campus or on-line. Plan A research or Plan B projects may be conducted under the auspice of either a resident or adjunct faculty member. The minimum number of credit hours required for the Master's Degree is 30 semester hours beyond the Bachelor's degree.

Michigan State University-CHM/Epidemiology

Room: Parlors, Table: 86

Website: <http://www.epi.msu.edu>

Area(s) of Study: Other Epidemiology

College Of Human Medicine/Department of Epidemiology

Department of Epidemiology offers graduate study in epidemiology, including coursework in biostatistics, for students interested in pursuing research in medical fields and public health careers. The department awards MS and PhD degrees, as well as having a certificate program.

Michigan State University-College of Law

Room: Parlors, Table: 93

Website: <http://www.law.msu.edu>

Area(s) of Study: Law

MSU Law offers a rigorous and intellectually challenging required curriculum enhanced by numerous specialty programs. Its integrated learning connecting theory to practice provides a thorough education in all principal areas of law and practice and gives you knowledge and hands-on experience that prepares you for a successful career.

Michigan State University-College of Nursing

Room: Parlors, Table: 94

Website: <http://www.nursing.msu.edu>

Area(s) of Study: Nursing

Join us to learn more about undergraduate and graduate studies at Michigan State University College of Nursing which can enable you to excel and advance in the healthcare field. College of Nursing representatives will be on site to answer questions.

Michigan State University-College of Osteopathic Medicine

Room: Parlors, Table: 95

Website: <http://www.com.msu.edu/admissions/index.html>

Area(s) of Study: Osteopathic Medicine

The Michigan State University College of Osteopathic Medicine offers a friendly, informal atmosphere combined with access to the resources of a Big 10 campus, a major metropolitan area hospital complex and a suburban campus located within a 20-mile radius of seven hospitals. Our Statewide Campus System includes 21 base hospitals located throughout the state of Michigan where students complete their clinical education.

The Michigan State University College of Osteopathic Medicine is committed to excellence in osteopathic education, research and service. The college fully prepares osteopathic physicians to respond to public need in a dynamic health care environment. MSUCOM looks for students who are academically accomplished, committed to service, and well versed in the philosophy of osteopathic medicine. In each area of evaluation, we examine applicants' accomplishments within the context of their life experience. Much like the way DOs approach their patients, we invite applicants to tell us their stories by completing a comprehensive supplemental application. Review criteria may include: grade-point average; level and types of coursework; academic honors; MCAT scores; commitment to service; demonstrated skills in communication, leadership, collaboration, problem solving, and critical thinking; fluency in multiple languages; military service; participation in varsity sports; research experience; and appreciation for diversity and cultural competence in healthcare.

Curricular Offerings

Students may enroll in one of three different sites for their first two years. MSUCOM offers state-of-the-art video conferencing and distance learning capabilities at each site.

- Classes begin in late June with an intensified gross anatomy class. Clinical rotations begin July 1 of the third year.
- Pre-clerkship Program begins with basic sciences and clinical skills, moving on through the Systems Biology series. A preceptorship program during the second year provides early clinical exposure. Students are assigned to one of 21 affiliated base hospital training sites in Michigan for the Clinical Clerkship Program in years three and four.

Programs/Degrees:

DO medical degree

Dual degrees offered: DO/MA in Bioethics, Humanities and Society, DO/MPH- joint DO/MPH degree in conjunction with the Michigan State University Program in Public Health.

DO/PhD

DO/PhD majors in Biochemistry and Molecular Biology, Cell and Molecular Biology, Genetics, Microbiology and Molecular Biology, Neuroscience, Pharmacology and Toxicology, Physiology and the interdepartmental program in Environmental Toxicology. Program purpose is to prepare select students for careers in biomedical research or academic medicine.

Special Programs

- Masters in Health and Humanities
- Masters in Epidemiology
- Masters in Public Health
- International Medicine Programs: Broad, varied international activities and rotations

Application Information:

Primary application service: AACOMAS (<http://aacom.org>)

Earliest filing date: 6-1-2009 – Opening date of AACOMAS

Latest filing date: * 12-1-2009 *For best consideration, applicants should submit their AACOMAS application at least 12 weeks prior to this school's latest filing date.

Academic year/orientation for first-year students start date: Late June/early July 2010

For more information contact MSUCOM Admissions at (517) 353-7740 or visit our website at: <http://www.com.msu.edu/index.html>

Michigan State University-Master's of Human Resources and Labor Relations

Room: Parlors, Table: 84

Website: <http://www.lir.msu.edu>

Area(s) of Study: All Graduate Programs, Business, Humanities/Arts, International Studies/Affairs, Social Science Human Resources and Labor Relations

The Master's of Human Resources and Labor Relations at Michigan State University is considered to be one of the top in the nation. Our Masters graduates are highly trained in all aspects of human resources management and labor relations. Our graduates are highly sought after by Fortune 500 Companies. The starting salaries, compensation, and benefit packages are considered very high and competitive. The opportunities for future advancement are numerous and we have had many successful alumni in executive management. To learn more visit our website at www.lir.msu.edu.

Michigan State University-MBA Program

Room: Parlors, Table: 83

Website: <http://www.mba.msu.edu>

Area(s) of Study: Business

The Broad Full-Time MBA at Michigan State University is a 21-month program offering 4 primary concentrations. We enroll around a hundred students each year in fall, with an average class size of 40 students, thus allowing you to learn business concepts in a dynamic, intensive environment. The Broad School 's hands-on leadership focus is unparalleled among American business schools. It is a competitive advantage for our graduates. Our students have constant opportunities to practice the skills they've learned, through the Team Leadership Lab, the Financial Analysis Lab, the Supply Chain Lab and other innovative simulation opportunities. Case competitions encourage the development of strategic thinking, problem-solving skills and presentation capabilities in a high pressure environment that simulates real decision-making situations, preparing students for career success. We follow a round system for our admissions and admit students only in the fall semester. We encourage you to visit us online to learn more about our program at www.mba.msu.edu

Michigan State University—Office of Financial Aid

Room: Hallway, Table: 140

Website: <http://www.finaid.msu.edu/grad.asp>

Preparing for Graduate School

Understand what you need to do to prepare:

Choosing a graduate program is a decision that affects you for a lifetime, but even before you enroll, you need to consider some key financial elements.

- **Sacrifices – you will need to spend time, energy, and money on your graduate education, often foregoing other activities and expenditures. Consider whether you can adjust your living arrangements to accommodate the prescribed budgets for living expenses and the lack of available time to work and earn. Remember that financial aid does not cover the same life choices that a full time job will allow!**
- **Save – your savings and credit choices today could affect your ability to finance your graduate education. A poor credit record could compromise your ability to borrow while in school. A lack of savings leaves you unprepared for unexpected expenses and emergencies.**
- **Seek financial aid by filing the Free Application for Federal Student Aid (FAFSA) each year and by contacting your college or department for funding, but also check local foundations, scholarship searches, military programs, and other organizations you belong to as all of these may be a source of funding. Some sources require applications months before your actual enrollment.**
- **Solicit help from professionals at your school, and don't assume that funding graduate school will be similar to your undergraduate experience. Financial aid for graduate students generally involves more loan and less grant money than for undergraduates.**

Strategize based on who you are today, what your life situation is, and how much you must have to live and support yourself and your family. Repair your credit and reduce your debt. Financial aid rarely covers the full cost of supporting a spouse or children, of paying a mortgage, or purchasing or maintaining a car.

Special Status

Not all graduate student programs are created equal. If you fall into one of these special categories, you may be ineligible for aid or have your aid reduced:

- **Students who are provisionally admitted or dually enrolled may be ineligible or have limited eligibility. View the links for more information.**
- **Doctoral students who have completed their comprehensive exams and have been coded by their department as being in the dissertation phase of their program (code DD in SIS) will have their financial aid budgets adjusted to ACTUAL tuition costs as opposed to AVERAGE tuition costs. This may result in reduced financial aid eligibility.**

Sources of Assistance

Fellowships--Fellowships are financial resources that do not have to be repaid. They are generally granted based on academic excellence, but some also have need components. Michigan State University supplies funding for several different types of fellowships including travel and emergencies. Contact your department for information.

Assistantships

Assistantships are awarded through individual departments, although there are also some available through administrative offices such as Residence Life. The work can be either as a teaching assistant (TA) or a research assistant (RA). More than 3000 graduate students hold assistantships at MSU.

To qualify, you must be in a graduate degree program and make satisfactory academic progress. A 3.0 grade point average is the minimum requirement, though it is higher in some departments or colleges. Benefits include a stipend (monthly paycheck), tuition waiver of 9 credits per semester (fall and spring), and health insurance. Matriculation and Infrastructure fees are also waived. If you have a graduate assistantship some tuition and fees are waived. This affects the amount of financial aid you can receive.

Funding for International Students

The Office of Financial Aid does not offer aid to international students. See Financial Assistance for International Students for sources of aid. Contact the Office for International Students and Scholars in 103 International Center, and the Institute of International Education in 109 International Center for information about fellowships and assistantships available to International students.

Michigan State University-Program In Public Health

Room: Parlors, Table: 85

Website: <http://www.publichealth.msu.edu>

Area(s) of Study: All Graduate Programs, Business, Communication/Journalism, Dentistry, Government/Public Policy, International Studies/Affairs, Law, Medicine/General Health Studies, Nursing, Osteopathic Medicine, Science (Physical/Biological), Social Science, Social Work, Veterinary M

The Program in Public Health (PPH) at Michigan State University (MSU) provides high quality public health education and training available entirely online using a variety of teaching strategies.

Michigan State University-College of Human Medicine

Room: Parlors, Table: 96

Website: <http://www.mdadmissions.msu.edu>

Area(s) of Study: Medicine/General Health Studies

The College of Human Medicine at Michigan State University awards the M.D. degree. We are a community-based medical school with seven great training sites throughout Michigan.

Michigan Technological University

Room: Parlors, Table: 82

Website: <http://www.gradschool.mtu.edu>

Area(s) of Study: Business, Engineering/Computer Science, Government/Public Policy, Humanities/Arts, Science (Physical/Biological), Social Science, Other Engineering

Michigan Tech (www.gradschool.mtu.edu) is engineering, sustainability, biotechnology, energy, air & water, materials, sensing & imaging, nanotechnology, social sciences, and humanities. By the numbers, Michigan Tech is 25 PhD programs and 31 Master's programs, with rankings in the top 50 nationally, the #1 Peace Corps Master's International program school in the nation, with seven programs, and 23 interdisciplinary Research Centers and Institutes. Michigan Tech resides along Lake Superior waterways, is surrounded by bike trails, and boasts abundant powder for downhill ski enthusiasts. In total, a graduate degree from Michigan Tech is less debt, real research, more offers and a line between work and play that can be as tiny as a carbon nanotube and as far reaching as a great new idea.

Michigan Theological Seminary

Room: Parlors, Table: 78

Website: <http://www.mts.edu>

Area(s) of Study: Religious/Theological Studies, Other Counseling Psychology

With its Bible-centered evangelical core beliefs, Michigan Theological Seminary is dedicated to providing its students with quality, academic training. MTS is committed to three core concepts in educating scholars of theology: Connecting the REAL TRUTH of God's Word with the REAL LIFE ministry of our faculty and students to make a REAL IMPACT for eternity.

Midwestern University-Chicago College of Osteopathic Medicine, Chicago College of Pharmacy, College of Health Sciences

Room: Parlors, Table: 97

Website: <http://www.midwestern.edu>

Area(s) of Study: Medicine/General Health Studies, Osteopathic Medicine, Physical Therapy Pharmacy, Occupational Therapy, Clinical Psychology, Biomedical Sciences

Midwestern University, with campuses in Downers Grove, IL and Glendale, AZ, is a professional degree seeking institution offering programs such as Osteopathic Medicine, Pharmacy, Physician Assistant studies, Physical Therapy, Occupational Therapy, Clinical Psychology, and Biomedical Sciences.

Monterey Institute of International Studies

Room: Parlors, Table: 80

Website: <http://www.miis.edu>

Area(s) of Study: Business, Government/Public Policy, International Studies/Affairs, Other Language Teaching, Translation and Interpretation

Our community is built on a foundation of cross-cultural understanding, acknowledging that language competence is one of many steps necessary to be not just a global citizen, but a global agent of change. On our campus today more than 800 students, representing more than 70 countries and speaking more than 90 languages, participate in our international educational community. Our student body includes 20 Fulbright scholars. We learn from one another, whether in the classroom, at the various symposia offered by our graduate programs and research centers, or through everyday interactions within the unique physical setting of our Monterey, California location. Each day, our dedicated faculty and staff endeavor to ensure that the Institute continues its focus on academic excellence, fosters a culture of innovation, and remains professionally relevant. It is important to make things better, but it is equally important to make them matter. Today MIIS alumni are making a difference across the globe, putting their unique expertise to work for organizations as diverse as the United Nations, NASA, CARE and the World Trade Organization. Institute alums work as diplomats, interpreters, teachers, business leaders and environmental researchers, and MIIS faculty have served as United Nations weapons inspectors in Iraq and on national delegations at the Nonproliferation Treaty Conference. In our drive to realize an unparalleled vision for comprehensive international education, we have

National College of Natural Medicine

Room: Parlors, Table: 79

Website: <http://www.ncnm.edu>

Area(s) of Study: Naturopathic Medicine, Other Classical Chinese Medicine

National College of Natural Medicine (NCNM) is the oldest accredited naturopathic medical college in North America. Our exceptional graduate programs in naturopathic medicine and classical Chinese medicine blend ancient healing wisdom with modern science in challenging curricula. NCNM's natural medicine clinics and Helfgott Research Institute are also central to the student experience. The college is located in Portland, Oregon, a haven for those seeking well-being, community, culture and natural beauty—an ideal place to study natural medicine.

National University of Health Sciences

Room: Parlors, Table: 81

Website: <http://www.nuhs.edu>

Area(s) of Study: Chiropractic Medicine Naturopathy, Oriental Medicine, Acupuncture

National University of Health Sciences is the nation's premier institution for health science education, offering you unparalleled preparation in expanding health care professions such as chiropractic, naturopathic, and oriental medicine, acupuncture, massage therapy, biomedical science, and more. As the leader in chiropractic education since 1906, National is renowned for academic excellence, an outstanding faculty, and innovative educational leadership. National sets the standard in preparation for careers in health care.

New York College of Podiatric Medicine

Room: Concourse, Table: 50

Website: <http://www.nycpm.edu>

Area(s) of Study: Medicine/General Health Studies, Podiatric Medicine

NYCPM is the nation's oldest and largest college of podiatric medicine. By combining outstanding classroom instruction, clinical training in the world's largest foot care clinic, and senior externships at 160 affiliated hospitals nationwide, New York College of Podiatric Medicine has remained at the forefront of podiatric medical education for over 95 years.

New York University-School of Continuing & Professional Studies

Room: Concourse, Table: 57

Website: <http://www.scps.nyu.edu>

Area(s) of Study: Business, Communication/Journalism, International Studies/Affairs, Other

NYU-SCPS offers a variety of master's degrees and graduate certificates in some of today's most exciting and versatile industries. Our graduate programs reflect the emerging trends, opportunities, and innovative business strategies in each respective field. By combining theory with real-world application, SCPS master's degree programs empower you with the critical knowledge and skills necessary to take the next step in your professional life. Our faculty, composed of industry leaders, provide you with the unique opportunity to learn from senior executives and professionals who share their vast experience and expertise.

New York University-Silver School of Social Work

Room: Concourse, Table: 58

Website: <http://ssw.msw@nyu.edu>

Area(s) of Study: Social Work

New York University School of Social Work offers a MSW in Clinical Social Work.

The program is dedicated to the development of social workers who practice with individuals, families and groups in an integrative, holistic manner. Our students are prepared to work in a wide range of settings with a diversity of populations. We have a

Northeastern University-Graduate School of Business Administration

Room: Concourse, Table: 53

Website: <http://www.cba.neu.edu/grad>

Area(s) of Study: All Graduate Programs

Established in 1922, Northeastern University College of Business Administration provides its students—undergraduate, graduate, and executive—with the education, tools, and experience necessary to launch and accelerate successful business careers.

Northwestern Health Sciences University-College of Chiropractic

Room: Concourse, Table: 49

Website: <http://nwhealth.edu>

Area(s) of Study: Chiropractic Medicine Acupuncture, Oriental Medicine, Massage Therapy

Northwestern offers a wide array of natural health care related programs including a Doctor of Chiropractic degree, Masters in Oriental Medicine and Acupuncture as well as a Massage Therapy certificate program. The chiropractic program is ten- trimesters in length and is divided into three parts: basic sciences, clinical sciences and clinical intern experience. Northwestern prepares its students to be primary-care physicians able to diagnose, treat and maintain their clients health.

Northwestern University-Medill-Journalism/IMC

Room: Ballroom, Table: 1

Website: <http://www.medill.northwestern.edu>

Area(s) of Study: Other Journalism/IMC

The Medill School offers graduate programs in Journalism and in Integrated Marketing Communications.

Our master's in journalism prepares students to succeed in the ever-changing media world of the 21st century. Emphasizing rigorous reporting, superior writing skills and cross media training, Medill produces graduates who are proficient in current and innovative, ground-breaking technologies. In addition to learning how to tell relevant and engaging stories, students work in Medill newsrooms in Chicago and Washington, D.C. with the option of an additional quarter working at international media companies through Medill's Global Journalism Program. Integrated Marketing Communications education was pioneered at Medill and emphasizes a customer-centric, analytic and insight-driven approach to planning and managing integrated marketing communications. Medill's faculty conducts research and teaches about consumer behavior and motivation, communication channels and media, and how to develop engaging messages that connect consumers and stakeholders with brands. Medill IMC students work with real clients in both the United States and Asia to create brand strategies and marketing plans.

Medill enrolls new graduate journalism students three times per year: Fall(September), Winter (January) and Summer (June). The priority application deadline for summer and Fall is January 15. the priority application deadline for Winter is July. Medill's Integrated marketing Communications program enrolls new students only in the Fall. the priority Application deadline is January 15.

Oakland University (Graduate Business Programs)

Area(s) of Study: Business

Oakland University-School of Health Sciences - Physical Therapy Program

Room: Ballroom, Table: 5

Website: <http://www.oakland.edu>

Area(s) of Study: Physical Therapy

The Doctor of Physical Therapy is a professional graduate program, which prepares individuals for licensure and entry into the physical therapy profession. As a graduate program, it includes theoretical, clinical practice, and research courses and experiences to prepare graduates to function in a variety of settings in physical therapy. Physical therapy is concerned with the prevention and treatment of acute and chronic conditions that cause disorders of movement. In order to provide appropriate treatment, physical therapists evaluate the musculoskeletal, neuromuscular, cardiopulmonary and associated systems, calling on the basic sciences and behavioral sciences in the interpretation of this evaluation. Patient programs are then developed to resolve movement dysfunctions. Physical therapists work in concert with all members of the health care team through a variety of referral relationships. The Doctor of Physical Therapy at Oakland University is designed to prepare clinicians with the evaluation and examination skills necessary to make physical therapy differential diagnoses of movement related impairments affecting the neuromusculoskeletal system. In addition, this degree will prepare graduates to provide effective care in the areas of prevention, screening, rehabilitation and community reintegration for their clients. Finally, graduates will be able to interpret and conduct research related to physical therapy. The program is accredited by the Commission on Accreditation in Physical Therapy Education.

Ohio University College of Osteopathic Medicine

Room: Ballroom, Table: 10

Website: <http://www.oucom.ohiou.edu>

Area(s) of Study: Osteopathic Medicine

OU-COM is in its fourth decade of training outstanding osteopathic physicians. Our two innovative curricula are structured to provide a seamless medical education experience through all phases of your training and offer early clinical experiences in the first two years in area doctor's offices, hospitals and through our Community Service Programs' free clinic. Our students complete their third and fourth year in our CORE (Centers for Osteopathic Research and Education) system, an integrated statewide medical education consortium.

Palm Beach Atlantic University-School of Pharmacy

Pittsburgh Theological Seminary

Room: Ballroom, Table: 34

Website: <http://www.pts.edu>

Area(s) of Study: Religious/Theological Studies

Pittsburgh Theological Seminary is a graduate professional institution of the Presbyterian Church (U.S.A). Founded in 1794, the Seminary is located in Pittsburgh, Pa. and approximately 380 students are enrolled yearly in the degree programs. The Seminary has nurtured men and women in their faith in God, while preparing them for pastoral ministry and lay leadership in all phases of the Church's outreach. The Seminary is rooted in the Reformed history of faithfulness to Scripture and commitment to the Gospel of Jesus Christ.

Portfolio Center-Graphic Design, Digital Media, Art Direction, Photography, Copywriting, Illustration

Room: Ballroom, Table: 12

Website: <http://www.portfoliocenter.com>

Area(s) of Study: All Graduate Programs, Communication/Journalism, Humanities/Arts, Other

Portfolio Center is the oldest and best-known school for communication arts in the country. Founded in 1977, it was the first school of its kind. It is also the most progressive – respecting tradition, yet constantly evolving to stay ahead of a dynamic industry driven by cultural shifts and technological innovation. Portfolio Center has served as the paradigm for all such schools for the past quarter of a century. Portfolio Center is a 2 year, full-time graduate level program which offers tracks in design, advertising art direction, writing, media arts, photography, and illustration. We are now accepting applications for 2009-2010.

Princeton University-School of Engineering & Applied Science

Room: Ballroom, Table: 35

Website: <http://www.princeton.edu/engineering/>

Area(s) of Study: Engineering/Computer Science

Princeton University's School of Engineering and Applied Science offers advanced degrees in the following departments: Chemical Engineering [M.Eng., M.S.E., Ph.D.]; Civil and Environmental Engineering [M.Eng., M.S.E., Ph.D.]; Computer Science [M.S.E. and Ph.D. only]; Electrical Engineering [M.Eng. and Ph.D. only]; Mechanical and Aerospace Engineering [M.Eng., M.S.E., Ph.D.]; and Operations Research and Financial Engineering [M.Eng., M.S.E., Ph.D.]. The University admits new students once a year for entry in September. For further information: Internet <http://engineering.princeton.edu>, email egrad@princeton.edu, telephone 609.258.2917, or visit Associate Dean Stephen Friedfeld, Ph.D., Office of Graduate Affairs, EQuad Room C211, Princeton, NJ 08544.

Saginaw Valley State University

Room: Ballroom, Table: 36

Website: <http://www.svsu.edu/gradadm>

Area(s) of Study: Business, Communication/Journalism, Nursing Teaching and Education, Instructional Technology, Educational Leadership, Electronic Learning, Healthcare Leadership, Occupational Therapy, Non-profit and Public Leadership

Saginaw Valley State University (SVSU) is a student-centered regional state university with an enrollment of over 10,000 students. There are 65 academic undergraduate programs, ten graduate, and one post master program. Small graduate classes (averaging 16) encourage personal and interactive learning. Most full-time faculty members hold a Ph.D. or highest level degree and are leaders in their field. SVSU graduate programs offer a quality education with opportunities for hands-on learning and leadership development that give our students a competitive edge. Add the fact that SVSU's tuition is the lowest of all Michigan state public universities make graduate school a great investment for you and your future. Graduate degree programs in teaching, educational leadership, business administration, nursing, instructional technology, E-learning, occupational therapy, health leadership, communications, and non-profit/public leadership. Visit www.svsu.edu/gradadm to learn more.

Sarah Lawrence College

Room: Ballroom, Table: 37

Website: <http://www.sarahlawrence.edu/graduate>

Area(s) of Study: All Graduate Programs, Communication/Journalism, Humanities/Arts, Law, Medicine/General Health Studies, Science (Physical/Biological), Social Science, Social Work, Other Dance, Theatre, Writing, Women's History and Education

Degrees Sarah Lawrence College offers

Sarah Lawrence College offers eight distinctive master's degree programs in the arts, humanities and sciences and two unique dual degree:

Art of Teaching (Master of Science in Education)

Child Development (Master of Arts)

Dual Degree in Social Work and Child Development (Master of Social Work / Master of Arts)

Dance (Master of Fine Arts)

Health Advocacy (Master of Arts)

Human Genetics (Master of Science)

Theatre (Master of Fine Arts)

Women's History (Master of Arts)

Joint Degree in Women's History and Law (Master of Arts / Juris Doctorate)

Writing (Master of Fine Arts)

Application information, including deadlines.

Applicants for graduate studies must have received a Bachelor of Arts or equivalent degree from an accredited college or university. Previous college work is expected to be at 3.0 GPA or higher and should reflect advanced course study. Several programs have special requirements, and deadlines vary, see our website at www.sarahlawrence.edu/graduate for more information.

What makes Sarah Lawrence College's programs different from others?

We have ten programs, some of them the first of their kind. We have small classes with a student/faculty ratio of 6:1. We encourage individual study and students work closely with faculty throughout their time at Sarah Lawrence. Sarah Lawrence, a lively community of students, scholars and artists, is conveniently located adjacent to New York City. As a small liberal arts college, it offers graduate and undergraduate programs in humanities, natural sciences and mathematics, history and social science, and creative and performing arts to both men and women.

Savannah College of Art and Design

Room: Ballroom, Table: 38

Website: <http://www.scad.edu>

Area(s) of Study: All Graduate Programs

SCAD: The University for Creative Careers (short)

With more degree programs and specializations than any other art and design university in the United States, the Savannah College of Art and Design is uniquely qualified to prepare talented students for professional, creative careers. SCAD is a private, nonprofit, accredited institution that offers a choice of degree programs in 42 majors. Students can pursue their degrees at campuses in Savannah and Atlanta, Ga., in Lacoste, France, and online through SCAD-eLearning. The career preparation of each student is nurtured and cultivated by more than 600 professors with extraordinary academic credentials and valuable professional experience.

Named one of the nation's "Most Interesting Schools" and one of "25 cutting-edge schools with an eye toward the future" by Kaplan-Newsweek, SCAD confers Bachelor of Arts, Bachelor of Fine Arts, Master of Architecture, Master of Arts, Master of Arts in Teaching, Master of Fine Arts and Master of Urban Design degrees.

For more information, visit scad.edu.

Sherman College of Straight Chiropractic

Room: Ballroom, Table: 39

Website: <http://www.sherman.edu>

Area(s) of Study: All Graduate Programs,Chiropractic Medicine,Medicine/General Health Studies,Science (Physical/Biological),Other

Sherman College of Straight Chiropractic, located in Spartanburg, South Carolina, is a graduate level institution that offers a 3 1/2 year Doctor of Chiropractic degree program. Sherman has been committed to providing students with the best chiropractic education possible for the last 36 years. Sherman offers a complete chiropractic curriculum, encompassing exceptional career prospects, respect in the healthcare field, and a reputation for excellence in chiropractic technique. Sherman also offers numerous scholarships and funding opportunities, a warm and helpful family atmosphere, top-of-the-line x-ray technologies and facilities, and a real-life health center internship experience working with patients from the community.

St Kitts/ International Nursing, Medicine, and Health Sciences

Room: Ballroom, Table: 13

Website: <http://www.umhs-sk.net>

Area(s) of Study: All Graduate Programs,Chiropractic Medicine,Medicine/General Health Studies,Naturopathic Medicine,Nursing,Optometry,Osteopathic Medicine,Physical Therapy,Podiatric Medicine

UMHS offers a traditional medical school curriculum that can be completed in less than four years. Students complete their first four semesters of basic science in St. Kitts. They then return to the US for the remainder of their studies (semester 5-10). The fifth semester is located at our Portland, Maine campus. During the fifth semester students receive strong clinical skills in addition to a Kaplan USMLE review course. On completion of the fifth semester students will take the United States Medical Licensing Examination (USMLE). Upon passing this examination, students will be placed into our clinical slots at US teaching hospitals. UMHS graduates can obtain licensure in the US or Canada. IUON offers both a ADN and BSN program. Students who go through the Nursing program get a dual degree- one from the US partner school and the IUON degree. They will get a US accredited degree. Going through both the IUON and UMHS programs, students are eligible to take the US exams and practice in the US.

The American University of Antigua College of Medicine School of Nursing

Room: Gold Room, Table: 112

Website: <http://www.auamed.org>

Area(s) of Study: Medicine/General Health Studies,Nursing,Science (Physical/Biological)

AUA's program is designed to make sure that students meet the necessary requirements of medical and nursing licensure in the United States. In addition, our curriculum ensures that students receive an education similar to the finest medical and nursing schools in the U.S. AUA is unique because it is the only hospital-integrated medical school in the Caribbean with a medical education program based on U.S. school curriculum that incorporates hospital experience. Instead of just classroom instruction, students accompany attending physicians and nurses on rounds and have patient contact at the hospital in Antigua beginning in their first semester.

The Chicago School of Professional Psychology-All Programs

Room: Gold Room, Table: 126

Website: <http://www.thechicagoschool.edu>

Area(s) of Study: Social Science, Social Work

The Chicago School is the nation's oldest and largest graduate university focused exclusively on psychology and related behavioral sciences. As a professional school, our focus is not strictly on research and theory, but on preparing students to become outstanding practitioners, providing direct service to help individuals and organizations thrive. We prepare our students with superior theoretical and classroom preparation—coupled with an unrivaled range of real-world training experiences; opportunities to build their multicultural and global sophistication; and ongoing personal and professional mentorship from faculty who are active leaders in their fields. Chicago School students graduate with the knowledge and practical skills they need to make an impact in the world and achieve their goals.

The Institute of World Politics

Room: Parlors, Table: 76

Website: <http://www.iwp.edu>

Area(s) of Study: Government/Public Policy, International Studies/Affairs, Other Intelligence, and National Security Affairs

The Institute of World Politics is a graduate school of national security and international affairs, dedicated to developing leaders with a sound understanding of international realities and the ethical conduct of statecraft. The Institute's curriculum is designed to prepare students to be effective leaders in statecraft, national security, and foreign policy. It includes the study of all the instruments of power and how these instruments are integrated at the level of grand strategy. These include diplomacy, military strategy, opinion formation and public diplomacy, intelligence and counterintelligence, psychological strategy, political action and political warfare, economic strategy, international aid and development, moral suasion and other forms of "soft power," and effective leadership. Ultimately, the Institute's curriculum exposes students to the full spectrum of international realities, including history, political culture, the practices of foreign powers, current and potential threats, and the strategic role of ideas, values, and belief systems in world politics. The Institute's unique courses offer specialized professional education not available elsewhere. All courses enhance students' capacity to understand and address major current issues. IWP currently offers three M.A. degrees, in Statecraft and National Security Affairs, Statecraft and International Affairs, and Strategic Intelligence Studies. In addition, the Institute offers eight graduate certificate programs (in American Foreign Policy, Comparative Political Culture, Counterintelligence, Democracy Building, Intelligence, International Politics, National Security Affairs, and Public Diplomacy and Political Warfare). Finally, IWP's curriculum is guided by a corps of scholar-practitioners that not only have advanced degrees in the subjects they teach, but also years of real-world experience that allows them to simultaneously expose students the theoretical and the practical implications of strategic affairs. These include ambassadors, senior intelligence officials from the FBI, CIA, and DIA, military officers, presidential advisers, and senior congressional staff members.

The Medical College of Wisconsin

Room: Parlors, Table: 91

Website: <http://www.mcw.edu>

Area(s) of Study: Medicine/General Health Studies

The Medical College of Wisconsin is dedicated to leadership and excellence in advancing Education and the preparing of physicians and scientists of tomorrow while enhancing the skills of today's health professionals. The college offers a Medical School, Graduate School, Medical Scientist Training Program, Graduate Medical Education, Postdoctoral Education and Continuing & Professional Education.

The New England College of Optometry

Room: Concourse, Table: 51

Website: <http://www.neco.edu>

Area(s) of Study: Optometry

The New England College of Optometry has been the educational and intellectual center of optometry in New England since 1894. The College serves as a leader in optometric instruction and research and continues to spread its influence throughout the world. Located in the Back Bay area of Boston, the New England College of Optometry is a professional graduate institution educating students in the discipline of optometry. NECO provides a four-year post-baccalaureate professional curriculum taught by more than 40 full-time and 100 part-time and adjunct faculty. The College aims to give its students a broad and sound training in the science of optometry; a thorough training in the practice of optometry; to uplift the science of optometry to the highest standard; and to make useful, practical and successful optometrists. With an enrollment of over 400 students, the student body is the most diverse of any college of optometry in the world: More than 25% of the students enrolled in the doctor of optometry program received their pre-optometry education outside the U.S., representing 14 different countries. There are also unique 2-year accelerated programs leading to a doctor of optometry degree for people with advanced academic degrees. Most recently, the College has been working with foreign educators to create customized, accredited programs for training optometrists and upgrading their credentials in countries as diverse as Italy, Spain, China and South Africa. A small, private institution, The New England College of Optometry emulates larger universities in its ambitions and scope. The College is committed to the advancement of vision care and boasts of an academic environment rich in intellectual exchange and opportunity.

The New School

Room: Ballroom, Table: 2

Website: <http://www.newschool.edu>

Area(s) of Study: Communication/Journalism,Government/Public Policy,International Studies/Affairs,Social Science

The New School offers some of the nation's most distinguished graduate school programs in art and design, the performing arts, media and communications, creative writing, humanities and the social sciences, professional management and public policy, and international affairs. Integrating the New School tradition of combining in-class and in-the-field work, each program exposes graduate students to an exciting and challenging course of study headed by a faculty of artists, scholars, and professionals who practice what they teach.

The Ohio State University-College of Optometry

Room: Ballroom, Table: 9

Website: <http://optometry.osu.edu>

Area(s) of Study: Optometry,Other Vision Science

For over 90 years, The Ohio State University College of Optometry has provided high quality vision care services for patients on campus and in the surrounding community. Student clinicians, and the licensed faculty optometrists who supervise them, use state of the art instruments and examination procedures to assure accurate diagnoses and personalized treatment plans for every patient. In addition, many OSU College of Optometry faculty members are recognized experts in the field of optometry and vision science.

The Ohio State University-College of Pharmacy

Room: Ballroom, Table: 8

Website: <http://www.pharmacy.osu.edu>

Area(s) of Study: Medicine/General Health Studies,Science (Physical/Biological),Other Pharmacy Practice

The Entry-Level Doctor of Pharmacy (PharmD) program at The Ohio State University is a dynamic choice for future pharmacy professionals in search of comprehensive preparation for practice in tomorrow's health care environment. Incoming students become part of the prestigious tradition of leadership in pharmacy education that extends back to the founding of the College of Pharmacy in 1885. The PharmD program is a four year post-baccalaureate program that leads to licensure as a pharmacist. Each year a diverse class of students engage in the study of pharmaceutical sciences, pharmaceutical care, and a rich variety of professional experiences that are woven throughout the academic program. Students pursuing the PharmD degree also have the opportunity to enroll in a robust set of combined degree options including PharmD/MPH, PharmD/MBA, PharmD/MS, and PharmD/PhD. Located between Ohio Stadium and The Ohio State University Medical Center on OSU's Columbus campus, the College of Pharmacy offers a perfect fit for students seeking the best in Buckeye traditions.

The Ohio State University-College of Veterinary Medicine/Office of Professional Admissions

College of Veterinary Medicine/Office of Professional Admissions

The Ohio State University-John Glenn School of Public Affairs

Room: Ballroom, Table: 6

Website: <http://www.glenn.osu.edu>

Area(s) of Study: Government/Public Policy

A degree from the John Glenn School of Public Affairs offers you a wide array of career options that engage you in work that matters. Whether you see yourself in a senior role at the U.S. State Department, as an agency head in state government, as a city manager, or as an advocate in a nonprofit organization, our program will help prepare you for success. The rigorous, hands-on curriculum provided by the Glenn School will give you the skills and tools you need to thrive in careers at all levels of government and in the not-for-profit sector. As a graduate student, you will have all the benefits of a small, high-quality graduate program located within a large, research institution. Our small program size fosters close relationships among students, staff, and faculty. Our beautiful facility creates an environment conducive to learning and to creating dialogue between students and policymakers on the pressing issues of the day. You will also draw upon the vast resources of one of the world's largest, most diverse research universities. Whether this means pursuing a dual degree, working in one of many interdisciplinary policy centers or participating in a myriad of public forums and lectures, Ohio State has what you need to grow and succeed.

The University of Findlay-Graduate & Professional Studies

Room: Parlors, Table: 69

Website: <http://www.findlay.edu>

Area(s) of Study: All Graduate Programs

The University of Findlay, 45 minutes south of Toledo on I-75 is known for its entrepreneurial approach to education. Master's programs are offered in Athletic Training, Business Administration, Education, Environmental Safety and Health Management, Liberal Studies, Occupational Therapy, Physician Assistant and Teaching English to Speakers of Other Languages. Plus, two Doctoral programs in Pharmacy and Physical Therapy.

Thomas M. Cooley Law School

Room: Ballroom, Table: 40

Website: <http://www.cooley.edu>

Area(s) of Study: Law

Thomas M. Cooley Law School is known worldwide for teaching students the knowledge, skills, and ethics needed to be respected lawyers and outstanding citizens. Cooley Law School has some of the most flexible scheduling options in the nation. Cooley has four campuses located across the state of Michigan: Ann Arbor, Auburn Hills, Lansing, and Grand Rapids. Cooley Law School enters a new class three times each year in January, May, and September and operates on a rolling admissions system, which means applications are processed at the time they are received. When all required materials are received by the Admissions Office, a decision is made and the applicant is informed of his or her admission status. If you would like to find out more about Cooley Law School, you can visit the Cooley website at www.cooley.edu. In addition, please feel free to contact the Admissions Office by calling (517) 371-5140, ext. 2244, or 2245 Monday through Friday, 8 a.m. until 6 p.m. EST to speak with an admissions representative or to schedule a tour; or send an e-mail message to admissions@cooley.edu.

Thunderbird School of Global Management

Room: Ballroom, Table: 23

Website: <http://www.thunderbird.edu>

Area(s) of Study: Business, International Studies/Affairs

Founded in 1946, Thunderbird is the first and oldest graduate management school focused exclusively on global business. It is regarded as the world's leading institution in the education of global managers and has operations in the United States and various locations around the world. Ranked No. 1 in International Business by the Financial Times, U.S. News & World Report, and The Wall Street Journal/Harris Interactive 2008 Survey of Corporate Recruiters, Thunderbird is dedicated to educating global leaders who create sustainable prosperity worldwide. The school's programs facilitate the development of the global mindset which is critical to managing effectively in different social, economic and political environments.

Tiffin University

Room: Ballroom, Table: 24

Website: <http://www.tiffin.edu>

Area(s) of Study: Business, Humanities/Arts, Other Education; Criminal Justice

Tiffin University is proud to offer a growing number of graduate programs for working professionals. We know that you lead busy lives. That's why we have created graduate degree programs that are flexible and affordable—and above all, practical. For more than a century, we have been delivering high-quality, professionally focused academic programs, giving our students the information they need to succeed in today's competitive work place. We offer the following graduate degrees:

- * Master of Business Administration (MBA)
- * Master of Education (MEd)
- * Master of Humanities (MH)
- * Master of Science in Criminal Justice (MSCJ)

Trinity Lutheran Seminary

Room: Ballroom, Table: 21

Website: <http://www.TrinityLutheranSeminary.edu>

Area(s) of Study: Religious/Theological Studies Church Music; Youth and Family Ministry; Christian Education

Trinity Lutheran Seminary is a theological seminary of the Evangelical Lutheran Church in America. Trinity is:

- Mission driven in its orientation.
- Trinity takes seriously its mission statement to “form leaders for Christ’s church at work in the world.” Coursework is intentionally integrative across fields of study. Contextual education elements anchor student learning and development as students are expected to put theological study to use for people’s lives.
- Academically focused with a rigorous curriculum.
- M.Div. students are required to take both Greek and Hebrew, and are expected to use these language skills in their biblical exegetical work. Students in all degree programs are expected to engage in a challenging course of study. Classes typically require a significant amount of reading, reflection, and written work.

- Spiritually grounded with worship and community life at its center.

Students from all degree programs are encouraged to offer their gifts of musical leadership and to participate in the liturgical arts. Trinity offers an advanced degree in Christian Spirituality. Community is vital to our life together.

- Urban—Rural—Global in its context.

Trinity is blessed with a truly unique context. Located four miles from the center of Columbus, the largest city in Ohio and the 15th largest city in the United States, the region is both religiously and culturally diverse.

Roughly 30 of Ohio’s 88 counties are a part of the 13-state Appalachian region. Trinity students have the opportunity to study and serve in this and other nearby rural areas of the state.

Students also have significant opportunities for international study. In recent years, Trinity students have spent from three weeks to a year in such places as: China, Germany, Israel, Italy, Spain, Tanzania, and the United Kingdom.

- Leadership oriented with important partnerships.

Trinity’s campus is host to Healthy Congregations, Inc., an independent organization that provides training and consultation in family systems and congregational leadership. Issues of leadership, service, and mission emerge throughout the curriculum, both in the classroom and in contextual learning opportunities, as students seek to understand the many ways in which personal transformation leads to transformation of communities.

- Ecumenical in terms of both faculty and students.

Trinity shares its campus with Bexley Hall Episcopal Seminary, and is an active member of the Theological Consortium of Greater Columbus (TCGC). Students are encouraged to register for classes at our partner seminaries during their course of study.

- Engaged in current theological and cultural discourse.

Through its faculty, staff, students, and alumni, Trinity is on the leading edge of some of the most contemporary debates in the 21st century church. Faculty members participate in ecumenical and interfaith dialogues, contribute to emergent church conversations, and serve as leaders on environmental and social issues. Alumni serve as leaders in congregational life, community organizing, and justice and advocacy work.

Are you mission driven? Academically focused? Spiritually grounded?

Trinity Lutheran Seminary may be the place for you.

Students come to Trinity to study in a variety of degree programs.

- Master of Divinity (M.Div.)

The M.Div. degree program accounts for the largest percentage of student enrollment. Requiring the equivalent of four years of full-time study, it provides preparation for the ordained ministry of the church. This degree program includes significant contextual education requirements, as well as language and cross cultural requirements.

- Master of Arts in Church Music (M.A.C.M.)

The M.A.C.M. degree may be earned in the equivalent of two years of full-time study. It is designed for competent musicians who are serving or intend to serve as church musicians. The M.A.C.M. program offers theological, liturgical, pastoral, and musical preparation for ministry in the life of the church. This degree program includes field education requirements.

- Master of Arts in Youth and Family Ministry (M.A.Y.F.M.)

The M.A.Y.F.M. degree may be earned in the equivalent of two years of full-time study. It focuses on ministries with children, adolescents, young adults, and families. Graduates may anticipate staff positions in congregations, outdoor ministries, and other church agencies. This degree program includes field education requirements.

- Master of Arts in Christian Education (M.A.C.E.)

The M.A.C.E. degree may be earned in the equivalent of two years of full-time study. It addresses the church's lifelong educational ministry, from early childhood through adulthood. Graduates may anticipate staff positions in congregations and church agencies, as well as continuing graduate study. This degree program includes field education requirements.

- Master of Theological Studies (M.T.S.)

The M.T.S. degree may be earned in the equivalent of two years of full-time study. Students choose this degree program for many reasons. Some are seeking preparation for doctoral programs in theology. Others are preparing for ministries that do not require the M.Div. degree. Still others seek personal theological enrichment, or seek to integrate faith with other professions. M.T.S. students choose from a range of program concentrations, including: African American Studies, Biblical Studies, Church in the World, History of Christianity, Congregational Ministry, Systematic Theology and Ethics, and General Theological Studies. In cooperation with the Capital University Law School, a dual M.T.S./J.D. degree program is available. In cooperation with the School of Nursing of Capital University, a dual M.T.S./M.S.N. degree program is available. Students seeking such degrees will make application at both schools.

Tulane University-School of Public Health and Tropical Medicine

Room: Ballroom, Table: 25

Website: <http://www.sph.tulane.edu/>

Area(s) of Study: Government/Public Policy, Medicine/General Health Studies, Social Work Public Health

Tulane University School of Public Health and Tropical Medicine is committed to advancing public health through teaching, research, and practice. Established in 1912, we are one of the oldest public health school in the country – and today among the largest. Our students, faculty, and staff represent more than 70 cultures from around the world. Our students and alumni can be found working worldwide for government agencies, NGOs, corporations, hospitals, and other health and humanitarian organizations. The Tulane admissions staff welcomes your inquiries about our programs, and extends you an open invitation to stop in for a visit anytime. We are happy to arrange for you to meet with faculty members that match your research interests, or with students that will share their own experiences of life at Tulane. Tulane is committed to making your admissions experience one that is informative, enjoyable, and marks the beginning of a rewarding graduate experience. We thank you for your interest in Tulane University School of Public Health and Tropical Medicine and look forward to receiving your application

UAG, School of Medicine-International Medical Program

Room: Hallway, Table: 143

Website: <http://www.uag.edu/medicine>

Area(s) of Study: Medicine/General Health Studies, Other Medical Spanish Courses

Studying Medicine at UAG gives students exceptional educational opportunities: training with real patients, Spanish language acquisition and cultural competence. Our International Medical Program graduates complete a U.S. residency and are licensed to practice in the United States. Guadalajara is a vibrant city of eight million with beautiful weather, traditions and people. Achieve your goal with UAG. Join us to learn more. www.uag.edu/medicine

University of Chicago-School of Social Service Administration

Room: Gold Room, Table: 125

Website: <http://www.ssa.uchicago.edu>

Area(s) of Study: Social Work

The purpose of the School of Social Service Administration (SSA) is to improve the quality of life of vulnerable individuals, families, groups, and communities through education, scholarship, and service. The goal of SSA's educational program is to guide students in acquiring graduate-level clinical, analytical, and organizational skills for effective social work practice. The goal of SSA scholarship is to derive theory and knowledge from practice and to apply the theories and knowledge of many disciplines to practice. Through research and service in the community, the School's resources are brought to bear on critical needs of the individual and society.

University of Detroit Mercy-School of Law

Room: Gold Room, Table: 135

Website: <http://www.law.udmercy.edu>

Area(s) of Study: Law

The School of Law at University of Detroit Mercy has prepared students for the practice of law since 1912. Through its day and evening divisions, the School offers a comprehensive legal education with opportunities for full- and part-time study. UDM provides a legal education environment noted for the accessibility of our faculty and staff and the collegiality of our students. A significant number of internationally and nationally recognized law firms have been impressed with our cutting-edge curriculum. Since implementing the Law Firm Program (LFP), we have received an explosion of attention from employers. Many employers recognize the LFP as the reason they choose to recruit our students. For the past six years, more than 90 percent of our graduates were employed or seeking a graduate degree within nine months of graduation. To learn more about UDM's path breaking curriculum, read its features in The Wall Street Journal, ABA Journal, preLaw, and the National Jurist among others. Articles in their entirety are available on UDM Law's website at www.law.udmercy.edu.

University of Illinois at Urbana-Champaign

Room: Parlors, Table: 75

Website: <http://grad.illinois.edu>

Area(s) of Study: All Graduate Programs

The University of Illinois at Urbana-Champaign offers a Summer Research Opportunities Program (SROP) for undergraduates and a Summer Pre-doctoral Institute (SPI) for graduate students interested in pursuing doctorates on the Illinois campus. With graduate programs that rank among the top five in the nation, this institution offers advanced degrees in over 100 disciplines, including numerous interdisciplinary and several joint degree programs. Illinois offers assistantships, traineeships, and fellowships to graduate students, each of which is supplemented with a tuition waiver and stipend. Visit grad.illinois.edu for more information.

University of Maryland-School of Public Policy

Room: Parlors, Table: 98

Website: <http://www.publicpolicy.umd.edu>

Area(s) of Study: Government/Public Policy, International Studies/Affairs

The Maryland School of Public Policy (MSPP) was founded in 1981 as a small school with big ideas. In a short time, we have become a major player, experiencing incredible success and momentum in building our program and earning our reputation. By reaching beyond our own intellectual community, we have created a new standard for what schools of public policy can accomplish. MSPP's national ranking reflects the school's place among the premier policy institutions in the nation.

University of Michigan Medical School

Room: Concourse, Table: 65

Website: <http://www.med.umich.edu/medschool>

Area(s) of Study: Medicine/General Health Studies

The U-M Medical School continues its long tradition of excellence with a diverse and outstanding student body, world-renowned basic science and clinical faculty, a completely revised curriculum for the M.D. degree, and exceptional facilities for patient care, education and research. The U-M Medical School consistently ranks in the top of all medical schools in the country. It also ranks near the top among all medical schools in terms of National Institutes of Health research awards. And the Medical School is in good company. U-M's College of Engineering, Law School, School of Business Administration, School of Dentistry, College of Pharmacy, School of Nursing, School of Public Health and School of Social Work all rank in the top ten nationally.

University of Michigan School of Environmental Health Science

Room: Concourse, Table: 64 (sharing a booth with U of MI School of Public Health)

Website: <http://www.sph.umich.edu/ehs/>

Area(s) of Study: Other Environmental Health

The environmental health sciences are concerned with the impact of environmental conditions on human health -- in particular the health effects in people that can arise from exposures to agents (chemical, biological, physical, or even behavior) through the air they breathe, the water they drink, the food they eat, and the manner in which they go about their lives and their work. It is an essential component of public health, and includes environmental chemistry, physics and biology, environmental and occupational health, toxicology and human nutrition. Environmental health is a multidisciplinary field grounded in the physical life sciences with applications to the social, management and political sciences. Degrees offered are MPH, MS, and PhD.

University of Michigan School of Public Health

Room: Concourse, Table: 64 (sharing a booth with U of MI School of Environmental Health Science)

Website: <http://www.sph.umich.edu/students/prospective/>

Area(s) of Study: Other Public Health

We offer MPH, MHSA, MS, and PhD programs in the 5 fields of public health: Health Behavior and Health Education, Health Management and Policy, Epidemiology, Environmental Health Sciences, and Biostatistics. Graduates work in health care management and administration, the non-profit sector, institutions such as the Centers for Disease Control and Prevention or the WHO, local and state health departments, consulting firms, advocate or lobbyist organizations, health care research, universities, industry, agencies such as the FDA, and many other fields. All undergraduate degrees and majors apply, stop by to see which graduate degree is right for you.

University of Michigan-School of Education

Room: Concourse, Table: 61

Area(s) of Study: Humanities/Arts, Social Science

University of Michigan-College of Engineering

Room: Concourse, Table: 45

Website: <http://www.engin.umich.edu>

Area(s) of Study: Engineering/Computer Science

The University of Michigan in Ann Arbor is one of the world's premier research institutions. The quality, breadth, and depth of Michigan's intellectual resources create a remarkable community of scholars--from our national leadership in a variety of fields to our community's robust cultural offerings. This is the Michigan Difference.

University of Michigan-College of Literature, Science, & the Arts

Room: Concourse, Table: 41

Website: <http://www.lsa.umich.edu>

Area(s) of Study: All Graduate Programs

College of Literature, Science and the Arts at the University of Michigan

The College of Literature, Science, and the Arts (LSA) is an extraordinary center of creativity, inquiry, and discovery. Over 1,000 faculty--experts in anthropology through zoology--teach courses that explore the world's cultural, social, and scientific big questions. Our faculty members produce some of the most notable research in their respective fields. In addition, our facilities include one of the most extensive library systems in the world, seven museums, and research labs for the natural and physical sciences. Some of these include the Biological Station in northern Michigan, Camp Davis in Wyoming, and two operating telescopes: the ROTSE telescope in New Mexico, and the Magellan telescope in Chile. A vibrant literary and performing arts tradition in the College enriches the minds and hearts of the campus community. All that a college experience should be--the intellectual challenges, the exposure to the new, the growth of knowledge and of individuals--can be found here, in the College of LSA. Please see each department's individual website for further information about admission, program requirements and funding: <http://www.lsa.umich.edu/lisa/depts/>. All LSA programs require admission to the Horace H. Rackham School of Graduate Studies (www.rackham.umich.edu/Admis). Recruitment contact: Paula Trail, LSA Dean's Office, Graduate Education (ptrail@umich.edu).

University of Michigan-College of Pharmacy

Room: Concourse, Table: 66

Website: <http://www.umich.edu/~pharmacy/>

Area(s) of Study: Other Pharmacy

Pharmacy, the health profession concerned with knowledge about drugs and their effects, draws from the chemical, physical, biological and behavioral sciences. It offers diverse opportunities in the US and around the world. Pharmacists may practice in a community or hospital pharmacy; a nursing home or extended care facility; pharmaceutical, biotechnology, and other private or public companies; government agencies; a college; or many other venues. Pharmacy was first taught at the University of Michigan in 1868 in the College of Literature, Science and the Arts. A School of Pharmacy was established December 29, 1876, the first in a US state university. In 1916 the School was renamed the College of Pharmacy. Although it is an integral part of the larger institution, the college of Pharmacy has an enrollment of approximately 320 professional students and 80 graduate students. As a result, pharmacy students have access to all the facilities offered by the large university, yet enjoy the advantages of belonging to a small, close-knit group. The Pharm.D is a professional degree requiring four years of study in the College after completion of the pre pharmacy study in a liberal arts college. The focus of the program is to educate students about the practice of pharmacy, but the program is broad enough to allow students to gain employment in fields outside of the pharmacy practice. The program includes extensive clinical training and may be adapted to prepare students for graduate study. Graduates are qualified to practice pharmacy and are eligible for licensure as a pharmacist.

University of Michigan-Dearborn-School of Management

Room: Concourse, Table: 48

Website: <http://www.som.umd.umich.edu/>

Area(s) of Study: Business Accounting, Finance, Information Systems and Business Administration

Since 1959, the School of Management at the University of Michigan-Dearborn has been committed to providing practice-oriented business programs that address the needs of business, industry, and government. Our undergraduate and graduate students are taught by faculty that not only have close ties with the business community, but also have expertise from participating in the business, professional, and academic realms. The exceptional performance of our faculty has provided that the School of Management is one of only 900 schools worldwide to be accredited by AACSB International

University of Michigan-Flint-Office of Graduate Programs

Room: Concourse, Table: 47

Website: <http://www.umflint.edu/graduateprograms>

Area(s) of Study: All Graduate Programs

The University of Michigan-Flint offers graduate studies in the following areas:

-MS in Anesthesia

-MS in Biology

-MBA

-MS in Computer Science & Information Systems

-MA in Education

-MA in English

-MS in Health Education

-Master of Liberal Studies

-Doctor of Nursing Practice

-Doctor of Physical Therapy

-Transitional Doctor of Physical Therapy

-MPA

-MA in Social Sciences

University of Michigan-Gerald R. Ford School of Public Policy

Room: Concourse, Table: 63

Website: <http://www.fordschool.umich.edu>

Area(s) of Study: Government/Public Policy, International Studies/Affairs

At the Gerald R. Ford School of Public Policy, we offer rigorous education to undergraduate, graduate and doctoral students, confident that those who are well trained in the analysis of economic, political and organizational issues will be best able to address public concerns.

University of Michigan-Program in Survey Methodology

Room: Concourse, Table: 46

Website: <http://www.isr.umich.edu/gradprogram/>

Area(s) of Study: Social Science Survey Methodology

PSM is a program where students learn the science of surveys. Our students study with some of the world's leading survey methodologists while pursuing their Master's or PhD degree. The Program provides a rich intellectual environment for study and work at one of the premier public universities in the world. PSM brings together faculty and scientists from the social and behavioral sciences in the College of Literature, Science, and the Arts; the School of Public Health; and the Institute for Social Research. Moreover, the quantitative strengths of disciplines such as communication studies, economics, education, political science, psychology, sociology, and statistics are integral to the empirical underpinnings of the program. With its depth and breadth of curriculum; faculty who are outstanding researchers, teachers, and mentors; exceptional research opportunities at the Institute of Social Research; and the extraordinary range of course offerings at the University of Michigan, the program offers qualified students superb educational opportunities. Students in the program receive theoretical grounding in all aspects of survey methodology, from sample design and measurement, to modes of data collection, statistical estimation, and probability and distribution theory. Students have the opportunity to explore novel ways to develop applications of survey methodology in a wide variety of fields. Survey methodology principles can be applied to professions such as market research, nursing, public health, natural resources, information sciences, and operations engineering, through courses taken in cognate areas within the rich, diverse academic environment

University of Michigan-Ross School of Business

Room: Concourse, Table: 62

Website: <http://www.bus.umich.edu>

Area(s) of Study: Business

Ph.D. in Business Administration: The Stephen M. Ross School of Business at the University of Michigan offers a Ph.D. in Business Administration with specialization in Accounting, Business Information Technology, Finance, International Business/Business Economics, Management & Organizations, Marketing, Operations & Management Science, and Strategy. Students benefit from mentorship by world-class faculty, opportunities for collaborative research, intensive coursework, and an unparalleled Teacher Development Program. Our students are tremendously successful on the academic job market with 95% securing a tenure-track position within 6 months of completing the program, many at the world's top universities. Learn more about the Ross School and how the Doctoral Studies Program might help you meet your goals as an aspiring academic by contacting us at rossphd@bus.umich.edu or visiting us online at <http://www.bus.umich.edu/Academics/Phd/>.

Master's in Supply Chain Management: The University of Michigan's Ross School of Business offers an intensive 1-year Master's degree in Supply Chain Management (MSCM). The Ross MSCM emphasizes action-based learning throughout our comprehensive SCM curriculum, taught by our world renowned Operations Management Faculty. MSCM students receive the necessary skills to be a successful supply chain leader via our business boot camp which covers topics in finance, accounting, statistics, marketing, strategy, and communications. Students further develop themselves as global leaders via specialized leadership training modules and project management workshops. The cornerstone of the MSCM program is a guaranteed team-based internship with the Tauber Institute for Global Operation. Assignments range from strategic analysis and supply chain audits to supply chain design issues and distribution challenges with top firms around the globe. For additional information contact us at rossmscm@umich.edu or visit us online at www.bus.umich.edu/mscm

University of Michigan-School of Dentistry

Room: Concourse, Table: 44

Website: <http://www.dent.umich.edu>

Area(s) of Study: Dentistry

4 year DDS program, 2 year international DDS program, Master's degree, PhD in Oral Health Sciences

University of Michigan-School of Information

Room: Concourse, Table: 42

Website: <http://www.si.umich.edu>

Area(s) of Study: Other Information

The School of Information (SI) is strong in teaching and research that challenges the status quo of the information professions. Our faculty and students work to develop an integrated understanding of human needs as they relate to information systems and social structures, connecting people, information, and technology in more valuable ways. The School of Information (SI) educates leaders for the information age, with a Ph.D. program and master's degree specializations in:

Archives and Records Mgmt

Community Informatics

Human-Computer Interaction

Incentive-Centered Design

Information Analysis and Retrieval

Information Policy

Library and Information Services

School Library Media

Preservation of Information

Social Computing

University of Michigan-School of Natural Resources and Environment

Room: Concourse, Table: 59

Website: <http://www.snre.umich.edu>

Area(s) of Study: Science (Physical/Biological), Social Science Environmental Studies

We are a professional school and the only one in the country to integrate the study of natural science, social science and design into one shared educational experience. This interdisciplinary approach sets us apart from competitors and affords our graduates an unparalleled breadth and depth of knowledge, enabling them to thoughtfully work across boundaries to address the pressing, highly complex environmental issues found around the world and in our front yards.

We offer two masters programs: a Masters in Science and Masters in Landscape Architecture. Our MS program has eight fields of study, which range from more policy oriented to ecology orientated, to concentrate in: Aquatic Sciences; Behavior, Education, and Communication; Conservation Biology; Environmental Informatics; Environmental Justice; Environmental Policy and Planning; Sustainable Systems; and Terrestrial Ecosystems.

University of Michigan-School of Social Work

Room: Concourse, Table: 60

Website: <http://www.ssw.umich.edu>

Area(s) of Study: Social Work

Reach out, Raise Hope, Change Society! The University of Michigan Social Work Program is dedicated to the training of social workers for roles and careers that have centrality and leverage within social welfare systems. Explore options in the University of Michigan School of Social Work MSW and PhD programs.

University of Michigan-Taubman College of Architecture + Urban Planning

Room: Concourse, Table: 43

Website: <http://www.tcaup.umich.edu/>

Area(s) of Study: Other Architecture, Urban Planning, Urban Design, Real Estate

Taubman College of Architecture and Urban Planning at the University of Michigan seeks to improve the human condition through thoughtful design and planning for the built environment. Its academic programs prepare graduates for positions of responsibility within a wide spectrum of professions, organizations, and institutions that shape the built environment at scales ranging from local to global. Taubman College conducts innovative design and policy research and serves the community, the state, the nation, and the world through outreach and partnerships. In pursuit of these ideals for over 100 years, Taubman College offers students from the state, the country, and around the globe a complement of disciplinary and interdisciplinary degree programs ranging from pre-professional to post-professional to Ph.D. Our committed and energetic faculty, staff and students form a diverse, creative, and collaborative community within the University of Michigan, one of the world's largest research universities. Taubman College has a long educational tradition that combines design and technology. Today, it continues to foster a broad view of architecture and urban and regional planning in the context of a major research university where interdisciplinary initiatives are encouraged and supported.

University of Minnesota-Carlson School PhD Program in Business

Room: Concourse, Table: 56

Website: <http://carlsonschool.umn.edu/phd/ba>

Area(s) of Study: Business, International Studies/Affairs

As a full-time program directed toward students with the intellectual capacity for advanced study, research, and analytical thinking, the University of Minnesota's Carlson School PhD program in business administration prepares students for careers as faculty members at universities and colleges or as researchers in business and government. The program provides the knowledge and tools students need to master a discipline within business administration and contribute to the development of business knowledge and practice. Our program covers six areas of concentration: accounting, finance, information and decision sciences, marketing and logistics management, operations and management science, and strategic management and organization.

University of Minnesota-College of Food, Agricultural and Natural Resource Sciences

Room: Concourse, Table: 55

Website: <http://www.cfans.umn.edu/gradprograms>

Area(s) of Study: Business, Engineering/Computer Science, Government/Public Policy, Law, Science (Physical/Biological), Social Science, Other animal sci, conservation, plant biology, fisheries/wildlife, entomology, applied economics, bioproducts/biosystems engin/mgmt, forestry, food sci/nutrition, water resources, land/atmospheric science

The College of Food, Agricultural and Natural Resources Science coordinates a variety of graduate study options offered by the University of Minnesota Graduate School. These include a complete range of degree options: masters and doctoral degrees, interdisciplinary degrees, joint degree programs, degrees for professionals, and international experiences.

- * Animal Science
- * Applied Economics
- * Applied Plant Sciences
- * Bioproducts and Biosystems Science, Engineering and Management
- * Conservation Biology
- * Entomology
- * Food Science
- * Natural Resource Science and Management
- * Nutrition
- * Plant Biological Sciences

- * Soil Science
- * Water Resources Science

Joint Graduate Degree Programs

- * Law School and Natural Resources Science and Management (JD/MS)
- * Law School and Conservation Biology (JD/MS)
- * Curriculum and Instruction and Environmental Education (MEd/MS)

Master Degree Programs for Professionals

- * Master of Agriculture in Horticulture (MAg)

International Experience

- * Peace Corp Masters International and Natural Resources Science and Management (MS)

University of MN Human Resources Graduate Programs-Human Resources and Industrial Relations

Room: Concourse, Table: 54

Website: <http://www.hrir.csom.umn.edu>

Area(s) of Study: All Graduate Programs

The University of Minnesota offers a full-time and part-time Master of Arts (M.A.) in Human Resources and Industrial Relations (HRIR), which is a professional degree preparing students for private and public sector employment in HR management, labor relations, and related fields. A Doctor of Philosophy (Ph.D.) degree is also available that prepares individuals for academic careers. Entering students have undergraduate degrees in many subjects ranging from the fine arts to engineering. The most common undergraduate majors include psychology, business, economics, HR, and communications. Minnesota's HRIR graduate programs are widely recognized as the best in the field and consequently attract individuals from throughout the USA and the world. The University of Minnesota is located in the heart of the Twin Cities (Minneapolis and St. Paul), which is the sixteenth largest metropolitan area in the USA. The Twin Cities metro serves as headquarters to 18 Fortune 500 companies, 33 Fortune 1000 companies, and some of the largest privately held corporations in the world! The Twin Cities are also home to 7 professional sports teams, 100 theater companies, 130 art galleries and 35 museums. The fall semester application deadline is June 15; the spring deadline is October 15. For more information, visit www.hrir.csom.umn.edu.

University of New Haven-Graduate School

Room: Concourse, Table: 52

Website: <http://www.newhaven.edu>

Area(s) of Study: Business, Engineering/Computer Science, Government/Public Policy, Science (Physical/Biological) Community Psychology, Criminal Justice, Education, Environmental Science, Fire Science, Forensic Science, Human Nutrition, Industrial/Organizational Psychology, Management of Sports Industries, National Security and Public Safety

The University of New Haven is a private, comprehensive university located in south central Connecticut, 75 miles northeast of New York City and 135 miles southwest of Boston. Our Graduate School offers approximately 25 degree programs and over 30 certificate programs to help prepare students for success in a variety of industries. Small class sizes and state-of-the-art facilities allow students and professors to enjoy a supportive and interactive academic environment. The Graduate School follows a trimester schedule. Students can accelerate the completion of their degrees by attending three complete academic terms per year. Trimesters begin in September, January and April.

University of Notre Dame-The Graduate School

Room: Ballroom, Table: 3

Website: <http://graduateschool.nd.edu>

Area(s) of Study: Engineering/Computer Science, Government/Public Policy, Humanities/Arts, International Studies/Affairs, Religious/Theological Studies, Science (Physical/Biological), Social Science

The University of Notre Dame is a teaching and research institution located near South Bend, Indiana. Notre Dame's student population of approximately 12,000 students includes about 1,600 graduate students and about 1,500 professional students in Business and Law. The Graduate School is composed of the humanities, social sciences, science, and engineering divisions along with the School of Architecture. Doctoral students comprise roughly 80% of the graduate student population. The Graduate School's student to faculty ratio of 3:1 fosters strong mentoring relationships that promote professional development when coupled with rewarding research and teaching opportunities and resources for students to attend in-house workshops and external professional conferences. Doctoral students typically receive a financial support package consisting of a full-tuition scholarship and either an academic year or calendar year stipend. Some programs that offer only master's degrees have limited funds for stipends, but typically provide full-tuition scholarships; others follow the doctoral model and provide both tuition and stipend support. The University also subsidizes its health insurance premiums for students receiving full academic/calendar year stipends. Admission to Notre Dame's graduate programs is competitive. Ranges for the middle 50% of objective scores for Ph.D. students are 3.4 to 3.8 for U.S. undergraduate GPAs, 520 to 680 for verbal GREs, 650 to 750 for quantitative GREs, and 4.5 to 5.5 for the GRE analytical writing. We also consider applicants' focused interests and how they match those of their intended program, letters of recommendation, and research or internship experiences. If you would like more information, please feel free to contact the director of graduate studies in your prospective department of interest. If you would like to browse our Web site or apply on-line, visit us at <http://graduateschool.nd.edu>.

University of Pennsylvania-Graduate School of Education

Room: Ballroom, Table: 11

Website: <http://www.gse.upenn.edu>

Area(s) of Study: Other Education

The Penn Graduate School of Education offers programs leading to the Ph.D., Ed.D., M.S.Ed., M.S. and M.Phil.Ed degrees. GSE seeks students who are interested in promoting a deeper understanding of educational issues and contributing to societal change. The curriculum places a strong emphasis on the interactive relationship of theory, research, and practice, often focusing on urban education. Students engage in extensive fieldwork throughout their studies and are both learners and agents of change within the university and the surrounding Philadelphia neighborhoods.

University of Pittsburgh

School of Medicine

Graduate Students carry out cutting-edge research in the following areas: Biochemistry and Molecular Genetics, Cell Biology & Molecular Physiology, Cellular and Molecular Pathology, Immunology, Molecular Pharmacology, Molecular Virology & Microbiology, Neuroscience, Biomedical Informatics, Integrative Molecular Biology, Computational Biology, and Molecular Biophysics and Structural Biology.

University of Pittsburgh-Graduate School of Public and International Affairs

Room: Ballroom, Table: 33

Website: <http://www.gspia.pitt.edu>

Area(s) of Study: International Studies/Affairs

Masters degrees in International Development, Public Administration and Public and International Affairs

University of Southern California, School of Social Work

Room: Gold Room, Table: 123

Website: <http://www.usc.edu/socialwork>

Area(s) of Study: Social Work

The USC School of Social Work has consistently been one of the top ten graduate social work programs in the nation. The MSW program has 2 year, 3 year, and 4 year options, four campus locations, and a military in social work specialization. Concentration areas include: Community Organization, Planning & Administration (COPA); Families & Children; Health; Mental Health; and, Social Work in the Workplace. The PhD program prepares students to conduct substantive social work research.

University of Southern California-Viterbi School of Engineering

Room: Gold Room, Table: 124

Website: <http://viterbi.usc.edu>

Area(s) of Study: Engineering/Computer Science Aerospace Engr., Mechanical Engr., Astronautical Engr., Biomedical Engr., Civil Engr., Environmental Engr., Chemical Engr., Petroleum Engr., Materials Science, Computer Science, Electrical Engr., Engr. Mgt., Industrial & Systems Engr., Systems Engr.

The University of Southern California's Viterbi School of Engineering has graduate students pursuing degrees in over 25 fields; the USC graduate program in engineering is consistently ranked in the top 10 in the U.S. News and World Report rankings. With over \$170 million in external funding support, the school is among the nation's highest in volume of research activity. More than a third of its 165 faculty members are fellows in their respective professional societies. With 33 faculty members elected to the National Academy of Engineering, and over 45 others who have earned Presidential Early Career, Presidential Young Investigator or NSF/NIH Young Investigator awards, the school ranks among the nation's very best in these important metrics of a school's present and future strength.

The Viterbi School's academic departments are:

Aerospace & Mechanical Engineering

Astronautical Engineering

Biomedical Engineering

Chemical Engineering & Materials Science (including Petroleum Engineering)

Civil & Environmental Engineering

Computer Science

Electrical Engineering (including Computer Engineering)

Industrial & Systems Engineering (including Engineering Management)

The school has recently added Master's degrees in Financial Engineering, Health Systems Management Engineering, Green Technologies and Electrical Engineering - Electric Power.

For those debating between graduate education and work, the flexibility of the USC Viterbi School's Distance Education Network (DEN) may be the perfect solution. Through DEN, over 30 engineering Master's degrees are available 100% online. Our distance students receive a fully equivalent academic experience, so our on-campus and online students earn the same exact degree.

University of the Pacific-McGeorge School of Law

Room: Ballroom, Table: 26

Website: <http://www.mcgeorge.edu>

Area(s) of Study: Law

Pacific McGeorge is a private, ABA-accredited law school located in Sacramento, California. With 100 full- and part-time professors, we have been graduating quality lawyers for more than 80 years. Pacific McGeorge is part of the University of the Pacific (UOP), California's first chartered university. Areas of specialization include Governmental Affairs and Policy, International Law, and a top-ranked Advocacy program. We offer off-campus clinical opportunities with more than 85 local, state, and federal agencies and nonprofits.

University of Detroit Mercy-School of Dentistry

Room: Gold Room, Table: 136

Website: <http://dental.udmercy.edu>

Area(s) of Study: Dentistry Dental Hygiene

The University of Detroit Mercy School of Dentistry is an urban-based school with a goal to graduate a dentist with the professional competence to assess, diagnose, plan, and treat patients with skill, sensitivity, and competency. The School of Dentistry is a private, partially state-supported school that was established in 1932. The University of Detroit Mercy is an independent Catholic institution sponsored by the Religious Sisters of Mercy and Society of Jesus.

Located in southwest Detroit (January 2008), the school provides an opportunity to deliver oral health care to an extensive patient population as well as continue its history of community outreach activities. The location provides classrooms, preclinical laboratories, clinics, cafeteria, and library - an improved environment for learning, research and patient care. A new clinical simulation laboratory containing patient simulator mannequins and clinical workstations is carefully designed to enhance learning. A 42-chair hospital-based satellite clinic, with additional patient-care opportunities, is located nearby at the University Health Center of Detroit Receiving Hospital. The School of Dentistry is dedicated to educating dentists who are patient-care oriented and skilled in the art of self-evaluation and lifelong learning.

Van Andel Institute-Graduate School

Room: Ballroom, Table: 27

Website: <http://www.vai.org>

Area(s) of Study: Medicine/General Health Studies, Science (Physical/Biological)

The goal of the VAI Graduate School is to train Ph.D. scientists as leading scholars in cellular, molecular and genetic studies relevant to human diseases. This unique doctoral training program will take advantage of remarkable opportunities in this field to prepare researchers for effective careers linking discoveries of basic science with applications needed for improved human health. Our graduate program is both distinct and distinctive. The VAI Graduate School has an independent charter from the State of Michigan to confer advanced degrees. Therefore, our educational mission is focused entirely on the effective training of doctoral students. Our curriculum is unique in leading students to explore fundamental concepts in genetics, biochemistry, cell and molecular biology through integrated courses based on current research questions. Our small class size (we anticipate enrolled up to four students each year) emphasizes cooperative learning strategies. Other facets of our program enable students to rapidly integrate into the ranks of professional scientists. We seek applicants with a sincere motivation for doing molecular and genetic research that makes a difference for human health. Successful applicants will be effective independent learners who work capably in a collegial, team environment. Those with a bold and pioneering spirit will make the most of this remarkable new opportunity. More information is available from our web site at www.vai.org, from the Graduate School Office at gradschool@vai.org or call us at 616-234-5708. Washington University in St. Louis-Division of Biology and Biomedical Sciences

Room: Ballroom, Table: 28

Website: <http://www.wustl.edu>

Area(s) of Study: Medicine/General Health Studies, Science (Physical/Biological)

Organized in 1973, the Division of Biology and Biomedical Sciences is a graduate educational consortium which includes faculty affiliated with twenty clinical and basic science departments in the School of Medicine and in the College of Arts and Science, all at Washington University in St. Louis. Division programs provide a broad interdisciplinary approach to graduate education. Students may choose from more than 450 faculty members for laboratory rotation and dissertation research mentors. The Division offers training in 12 programs that lead to the Ph.D., combined M.D. /Ph.D., and a Summer Undergraduate Research Program. More information may be found at <http://dbbs.wustl.edu>

Washington University in St. Louis-George Warren Brown School of Social Work

Room: Ballroom, Table: 29

Website: <http://brownschool.wustl.edu>

Area(s) of Study: Social Work, Other Public Health

The George Warren Brown School of Social Work at Washington University in St. Louis offers a top ranked MSW program and a new Master of Public Health. The Brown School is committed to positive social change through path-breaking research and educational excellence. Students at Brown are united by a passion to help others. The Brown School offers a very flexible curriculum for graduate students. The MSW program offers six concentrations in Children, Youth, and Families; Health; Mental Health; Gerontology; Social and Economic Development; and Individualized. In addition, there are two specializations available in Research and Management. The MPH program provides a solid foundation in the core competencies of Public Health with an innovative curriculum centered around transdisciplinary problem solving courses. The MPH program is designed to provide opportunities for building analytical, leadership, and team building skills. Both the MPH and MSW programs offer national and international practicum opportunities. The Brown School is on rolling admissions and awards over 3 million dollars in scholarships each year. The Brown School has additional resources and scholarships available exclusively for Teach for America, Peace Corps, Coro, AmeriCorps, and City Year alumni.

Wayne State University-Graduate Admissions

Room: Ballroom, Table: 31

Website: <http://www.wayne.edu>

Area(s) of Study: All Graduate Programs

Wayne State is a national urban research university located in Detroit, Michigan. With approximately 33,000 students, the university offers hundreds of programs at the undergraduate and graduate level along with professional schools of Medicine, Law, and Pharmacy.

Wayne State University-Law School

Room: Ballroom, Table: 30

Website: <http://www.law.wayne.edu>

Area(s) of Study: Law

Wayne State is an urban national research university located in Detroit, Michigan. With approximately 33,000 students, the university offers hundreds of programs at the undergraduate and graduate level along with professional schools of Medicine, Law, and Pharmacy. Wayne Law, located in the middle of Detroit's historical cultural center, offers a unique urban experience. Detroit's vibrant legal market - including government offices, state and federal courts, multinational corporations, unions and major law firms - provides students a wide range of opportunities for employment and internships. Wayne Law also offers a network of more than 11,000 living alumni, including established leaders of the legal community, practicing in every state of the nation and in more than a dozen foreign countries.

West Virginia School of Osteopathic Medicine

Room: Ballroom, Table: 16

Website: <http://www.wvsom.edu>

Area(s) of Study: Medicine/General Health Studies, Osteopathic Medicine, Science (Physical/Biological)

The West Virginia School of Osteopathic Medicine is a nationally ranked, award winning medical school with a world class reputation that is committed to providing its students with a quality osteopathic medical education. WVSOM has been ranked among the top medical schools in the United States by U.S. News & World Report magazine every year since 1998. WVSOM is also a worldwide leader in terms of the percentage of graduates practicing in rural areas of the country.

Western Michigan University-Graduate College

Room: Ballroom, Table: 17

Website: <http://www.wmich.edu/grad>

Area(s) of Study: All Graduate Programs

Through the Graduate College, Western Michigan University offers 29 doctoral, 1 specialist, 67 master's and 7 certificate programs, many of which have earned national and international recognition.

Whittier Law School

Room: Ballroom, Table: 18

Website: <http://www.law.whittier.edu>

Area(s) of Study: Law

Whittier Law School was founded in 1966 as an institution designed to provide a superior public-centered legal education. The Law School is affiliated with Whittier College which was founded in 1887. Whittier Law School is fully accredited by the American Bar Association and is a member of the Association of American Law Schools. The Law School's Centers for Children's Rights, Intellectual Property and International and Comparative Law are recognized for their excellence and offer specialized programs and opportunities. The Law School's strengths in Public Interest Law and Health Law offer additional options to students wishing to focus their education.

Yale Divinity School

Room: Ballroom, Table: 19

Website: <http://www.yale.edu/divinity>

Area(s) of Study: Religious/Theological Studies

Building on its centuries-old traditions, Yale Divinity School fulfills a critical role preparing leaders for service in church and academic world. The YDS student body represents a wide range of cultures, ethnicities and faith communities, taught by faculty eager to accept the educational challenges of an increasingly globalized environment. Outside the classroom, but equally important to the YDS experience, are the deeply inspirational daily chapel services reflecting a great variety of worship traditions. YDS students may prepare for a life of ordained or lay ministry by enrolling in one of three degree-granting programs: M.Div, MAR, STM. In this ecumenical, nonsectarian setting within the broader Yale University community, the Divinity School brings together faith and intellect in service to its mission: "To foster the knowledge and love of God through critical engagement with the traditions of the Christian churches in the context of the contemporary world."
